

About Us...

The LeFlore County Coalition for Health Living is a unique partnership of community organizations, agencies, mental health providers, business professionals, family members, and individuals committed to improving the quality of life for children and families residing in LeFlore County. This county wide coalition is working to promote healthy living for our neighbors, friends and families.

The Coalition is actively striving to make LeFlore County a healthier place to live through efforts including establishing a local Boy's & Girl's Club, drug prevention initiatives, school readiness programs, educating and

empowering area youth, sponsoring a Teen Rally, supporting a Systems of Care program, implementing a comprehensive tobacco control program, addressing underage drinking and providing education to the community.

They have expanded efforts to include taking a more active role in alcohol, tobacco and other drug prevention. LCC4HL applied and received a grant from TSET to implement a comprehensive tobacco control program county wide and have had great success through "Tobacco-Free LeFlore County" project including numerous 24/7 schools and tobacco free park policies. They also have been exploring ways to

effectively address the issues of underage drinking and binge drinking.

They have recently started looking at plans to effect health in a more long term and strategic manner and adding the priority of nutrition and fitness. The coalition has begun to assess the community needs and will then work to create a comprehensive County Health Improvement Plan.

LeFlore County Coalition for Healthy Living is working to improve the health of the families and youth of LeFlore county. They want to make their community a healthy place to live, work and play.
