General Public:	Laura Cross, J.D., M.S., R.N. Scoggins & Cross 3100 City Place Building 204 N. Robinson Oklahoma City, OK 73102 <a href="mailto:lauracross@okhealthlawyer.com">lauracross@okhealthlawyer.com</a>	September 2007
Hospice Administrator:	Michelle Fox, R.N. 8823 S. 72 <sup>nd</sup> East Avenue Tulsa, OK 74133 <a href="mailto:mhfox@saintfrancis.com">mhfox@saintfrancis.com</a>	September 2007
Hospice Administrator:	Vacant	
Professional Counselor:	Terry Jones 530 S. Pleasantview Drive Mustang, OK 73064 <a href="mailto:Terry.Jones@americanhospice.com">Terry.Jones@americanhospice.com</a>	September 2008
General Practitioner:	Waddah N. Nassar, M.D. (Board Chair Person) 7221 West Hefner Road Oklahoma City, OK 73162 <a href="mailto:waddahnassar@sbcglobal.net">waddahnassar@sbcglobal.net</a>	September 2009
Registered Nurse:	Linda Oas, R.N. 15 Willowcreek Shawnee, OK 74801	September 2007
Statewide Association:	KellyNunn 3302 Pondridge Road Chickasha, OK 73018 <a href="mailto:kellyj12@sbcglobal.net">kellyj12@sbcglobal.net</a>	September 2007

**PURPOSE:** The Oklahoma Hospice Advisory Board is authorized by Section 1-860.13 of the Oklahoma Hospice Licensing Act {63 O.S. §§ 1-860 et seq.}. The Board is appointed by the Governor and functions as a professional advisory body to the Oklahoma State Department of Health for the development and improvement of services provided by hospices. As a part of their routine activities, the Board reviews and approves Department regulations for hospice licensure; evaluates practices and procedures of the Department regarding the administration and enforcement of the provisions of the Act; and annually publishes a report of its activities and recommendations for improvement of hospice services and patient care to the Governor and the Commissioner of Health.

**BACKGROUND:** After implementing regulations for licensure became effective, the Department in August of 1992 first licensed hospices. Seventeen existing hospices, already certified to receive Medicare funding, were originally licensed. Because the Act specifically exempted hospices in communities with populations of 25,000 or less from licensure, hospices in these communities were licensed only on a voluntary basis. In 1996, the Act was revised requiring all hospices to be licensed. Although a number of existing hospices in smaller communities were licensed at this time, the growth in the number of hospices in Oklahoma since 1992 has basically been a result of the increased public awareness of hospice and the desire of providers to supply these services.

There are 137 licensed Class A (Medicare certified) hospices and 18 Class B (licensed only) in Oklahoma. Although the Oklahoma City and Tulsa metropolitan areas have the largest number of hospices, all seventy-seven counties have the availability of hospice services from at least one licensed hospice provider.

**SERVICES:** A hospice program provides a continuum of home and in-patient palliative and supportive care for the terminally ill patient and the patient's family. Services are medically directed, nurse coordinated, and individualized to meet the special needs of patients during the final stages of life. Care is available twenty-four hours a day, seven days a week, and is provided on the basis of need, regardless of the ability of the patient or family to pay. Bereavement services to the family continue after the patient's death.

Nurses, physicians, home health aides, therapists, counselors, psychologists, social workers, dietitians, homemakers, clergy, and volunteers provide hospice services. Services are provided based on a plan of care developed by the hospice to meet the special needs of the patient and family. Care is designed to support the patient in achieving the best quality of life possible with their illness.

Hospice services provided under the Medicare benefit and most insurance plans require the patient or legal representative to make an informed election of the service. In making this election, the patient acknowledges curative care related to the terminal illness will no longer be covered. The patient or legal representative may revoke the election of the hospice benefit at any time to again seek curative care.

**A**CTIVITIES: The Oklahoma Hospice Advisory Board has met on a quarterly basis during the last year to evaluate and review the standards and practices of the Department in administration and enforcement of the provisions of the Act. The Board has received reports of inspections conducted, citations observed, and complaints investigated. Statistical information regarding the growth of hospices in Oklahoma has been routinely reported and evaluated.

The need for the availability of free-standing hospice facilities in Oklahoma was recognized several years ago since some patients do not have the support needed for terminal illness care in their home. Legislation to clarify the authority of the Department of Health to promulgate rules for these facilities became effective November 1, 2003 and subsequently rules for inpatient hospice facilities were effective May 27, 2004. To date there is one licensed inpatient hospice facility.

During the 2006 legislative session there was a change in the fee structure for existing hospice. Additional funding generated from the increase in hospice license renewals will allow for additional oversight of existing hospice.

**R**ECOMMENDATIONS: The Board finds hospice services are available in all areas of Oklahoma although some areas may be under served. There continues to be a lack of public awareness of hospice and the services that are available to patients and their families. Some Oklahoma physicians do not understand and recommend hospice care to patients and families that could benefit from the service. To support the provision of hospice services, the Board makes the following recommendations to the Governor and the Commissioner of Health:

1. Oklahoma medical schools, residency programs, and other health care professional programs should be encouraged or challenged to offer curricula on end of life issues and pain and symptom management as well as hospice rotations to all health professionals. All hospices should participate in these programs.

2. The Board is aware of the lack of emphasis that the Centers for Medicare & Medicaid Services (CMS) has placed on the oversight of hospice services provided through the Medicare program. Due to this lack of emphasis on Medicare certified providers at the Federal level, the Board recommends that oversight of hospice services offered through licensed providers be increased at the State level. Realizing that

increased licensure survey visits to hospice programs will require additional funding; the Board supports an increase in state licensure fees for hospice providers.

3. The rapid growth in the number of hospice providers in our state has been a matter of serious discussion among Board members and within the state hospice industry at large. The Board would support a legislative initiative to form a task force composed of appropriate individuals to explore the reasons behind this growth and to examine access to hospice services across the state and the quality of the services provided.

4. Physician knowledge and involvement in hospice care is critical to assuring access to care for the individuals who could most benefit from hospice services, and their families and loved ones, as well as for the quality and appropriateness of the hospice services provided on an individual basis. The Board would like to find ways to promote physician education and involvement in the hospice model of end-of-life care.

5. The Board has recognized the lack of standardized requirements for hospice administrators. Discussion has continued throughout the Board meetings to add a certification requirement for Hospice administrators. The Board supports the movement towards requiring Hospice administrators to be certified by passing a standardized proficiency test and demonstrating minimal training and education.
