Intranasal (IN) Naloxone (Narcan®) Medication Administration

Candidate: _____ Examiner: _____

Date: _____ Signature: _____

Scenario #: _____ Time Start: _____ Time End: _____

	Possible Points	Points Awarded
Confirms the verbal order (1 point)	1	
Explains procedure to patient (1 point)	1	
Checks for known allergies, contraindications & incompatibilities prior to administration of drug (1 point)	1	
Checks medication for: <ul style="list-style-type: none"> - Correctness (1 point) - Clarity (1 point) - Concentration (1 point) - Expiration date (1 point) 	4	
Device Use: <ul style="list-style-type: none"> - Remove Syringe and vile from properly labeled box (1 point) - Remove Yellow caps from both ends of Syringe (1 point) - Remove cap from vile (1point) - Connect syringe to vile (turn vile to the right) (1 point) - Connect atomizer tip to syringe (1 point) - Hold manikin (patient) head with one hand (1 point) - Place atomizer 1.5 cm within one nostril with other hand (1 point) - Briskly compress syringe to administer 1 ml of atomized spray into 1st nostril (1point) (may irritate nose slightly so have towel handy to catch any secretions) - Remove and repeat in other nostril so all 2ml of solution are administered (1 point) 	9	
Administers medication (Normal saline)	1	
Disposes of syringe in proper container	1	
Verbalizes need to observe patient for desired/adverse side effects	1	
Voices proper documentation of medication administration	1	
Total Possible	20	
Needed to Pass	16	

Critical Criteria

- _____ **Not replacing Naloxone (Narcan®) with Normal Saline for practice**
- _____ Failure to administer medication within 3 minute time limit
- _____ Contaminates equipment without appropriately correcting the situation
- _____ Administers improper medication or dosage (wrong drug, incorrect amount or inappropriate rate)
- _____ Technique or equipment used would have resulted in drug being deposited into wrong tissue
- _____ Failure to dispose of syringe and vile in proper container

You must factually document your rationale for checking any of the above critical items on the reverse side of this form.
