

# OHIP Work Group Quarterly Report

(April 1, 2012-June 30, 2012)

**Work Group Name: Children’s Health**

**Work Group Goal: Improve Infant Health Outcomes (Lead: Suzanna Dooley)**

Result Objective	Target Completion Date	Actual Completion Date	Accountability (Lead Person(s) Responsible)	Measure	Progress
1. Reduce sleep-related deaths	2012	Same	Lead: Julie Dillard	Measure:  The percent of infants who are put to sleep on their backs  2008: 64% 2008 PRAMS Data (Baseline) 2009: 64.9% 2009 PRAMS Data 2010: 66.4% 2010 PRAMS Data	Presented at Oklahoma City Area Inter-tribal Health Board (OCAITHB) conference on infant safe sleep for Native Americans.  Identified parent to speak about infant safe sleep at upcoming infant mortality summit.  Distributed Girl Scout Safe Sleep patch program information to 250 scout leaders at Girl Scout University event.  Updated nursing version of educational tool and posted on OK-Train.  Supported Fetal and Infant Mortality Review projects in Oklahoma City and Tulsa metropolitan statistical areas on continued community-based work on infant safe sleep.

<p>2. Reduce the proportion of unintended pregnancy from 48.4% to 47.2%</p>	<p>2012</p>	<p>Same</p>	<p>Lead: Jill Nobles-Botkin</p>	<p>Measure: The percent of women who have an unintended pregnancy resulting in a live birth</p> <p>2005: 48.8% PRAMS Data (Baseline)*</p> <p>2008: 50.3% PRAMS Data* 2009: 47.7% PRAMS Data* 2010: 45.6% PRAMS Data*</p> <p>*Oklahoma births resulting in a live birth were unintended at the time of pregnancy.</p>	<p>Added Nexplanon as an additional option for long acting reversible contraception in May.</p> <p>Reviewed final input from pilot of Women's Health Assessment tool. Final revisions being made to tool with plan to print in next quarter.</p> <p>Finalized the "My Life. My Plan." adolescent life planning tool.</p> <p>Collaborated with the Oklahoma Health Care Authority to include the "My Life. My Plan" tool in a quality improvement project involving OU residents to promote the importance of adolescent health care visits and life planning including reproductive health planning.</p> <p>Provided video conference training for county health departments, tribes, and Federally Qualified Health Centers on Adolescent Pregnancy Prevention on May 18.</p> <p>Forwarded Semi-annual PREP (Personal Responsibility Education Program) progress report to federal Project Officer. Oklahoma City-County Health Department (OCCHD) and Tulsa Health Department (THD) completed programs in selected middle and high schools with over 1,000 students. Plans for summer presentation of program in community settings implemented.</p> <p>Expanded county teen pregnancy prevention projects into two additional administrative areas for total of seven.</p>
---	-------------	-------------	---------------------------------	--	---

<p>3. Increase the number of women receiving quality (American College of Obstetrics and Gynecology) ACOG preconception care from 13.5% to 16% (from MCH plan) by 2012</p>	<p>2012</p>	<p>Same</p>	<p>Lead: Jill Nobles-Botkin</p>	<p>Measure: The percent of women receiving preconception quality care.</p> <p><b>Note:</b> Projected date for availability of benchmark data has been pushed back in order to include the 2011 collection cycle. Preconception care data availability is anticipated for spring 2013.</p>	<p>Reviewed final input from pilot of Women's Health Assessment tool. Final revisions being made to tool with plan to print in next quarter.</p> <p>Finalized the "My Life. My Plan." adolescent life planning tool.</p> <p>Collaborated with the Oklahoma Health Care Authority to include the "My Life. My Plan" tool in a quality improvement project involving OU residents to promote the importance of adolescent health care visits and life planning including reproductive health planning.</p>
<p>4. Improve identification and early treatment of maternal infections</p>	<p>2012</p>		<p>Lead: Jill Nobles-Botkin</p>	<p>Measure: The percent of women treated for Gonorrhea or Chlamydia during pregnancy</p> <p>2008: 92.5% 2008 STD MIS Data (Baseline)* 2009: 100% 2009 STE MIS Data*</p> <p>*All pregnant women diagnosed with Gonorrhea or Chlamydia.</p>	<p>Monitored appropriate treatment for Chlamydia (CT) and Gonorrhea (GC) in pregnant women. HIV/STD staff will continue to monitor and educate providers on appropriate treatment per CDC guidelines.</p>

5. Increase the number of mothers receiving (ACOG standards) first trimester prenatal care from 73.9% to 85.7%	2012		Lead: Jill Nobles-Botkin	Measure: The percent of women receiving first trimester prenatal care  2005: 75.5% 2005 Oklahoma Vital Records Data (Baseline)*  2008: 76.5% 2008 Oklahoma Vital Records*  *Oklahoma births to women initiating prenatal care during the first trimester of pregnancy.	Completed abstraction of data from hospital medical records for the quality project focused on improving information reported on birth certificates (project of MCH, Vital Records, Oklahoma Hospital Association, and OU Office of Perinatal Quality Improvement). Next steps will be to link these data with vital records data and analyze. Also in process is completion and analysis of survey completed by birth clerks.  See #2.

**Specific activities towards objectives completed this quarter:** On July 23-24, 2012 the Oklahoma team who attended the federal Region IV and VI Infant Mortality Summit in January 2012 will be brought back together for in Alexandria, Virginia to continue work. Oklahoma's team is: The State Health Officer (Dr. Terry Cline) and the state Title V Director (Suzanna Dooley) were required members of the team with other team members being Steve Ronck (OSDH), Paul Patrick (OSDH), Nico Gomez (Oklahoma Health Care Authority)/Shelly Patterson (Alternate Designee), Barbara O'Brian (Office of Perinatal Quality Improvement, OU Dept of OB-GYN), and LaWanna Halstead (Oklahoma Hospital Association).

A major action from the Oklahoma Team's work plan was to host an event in the state to elevate and engage others in the work needing to be done to reduce infant mortality. The Oklahoma Leadership Summit on Infant Mortality is scheduled for October 1 in Oklahoma City. Save the Date invitations have gone out from Dr. Cline to leadership of a diverse audience: (e.g., business, faith-based, minority, military, law enforcement, tribal, insurance, health care provider organizations, local and state government, family and community organizations). Speakers/facilitators for the event have been confirmed.

**Other items to share:** All Team Leads (except Communications) participated in Quality Improvement training on April 16 and 17 with 4-6 members of their specific workgroup. One million dollars in state funds is being provided to the OSDH by the 2012 Legislature for use in furthering efforts to reduce Oklahoma's infant mortality rate. The funds will be used by MCH to facilitate implementation of evidenced-based models and practices to impact breastfeeding, infant safe sleep, abusive head trauma, and interconception services for high risk women.

### **Infant Mortality Work Groups and Leads:**

#### Maternal Care:

Preconception/Interconception: Jill Nobles-Botkin

Prematurity: Barbara O'Brien & Belinda Rogers

Tobacco: Jennifer Smith

Postpartum Depression: Julie Dillard & Alesha Lilly

Infant Care:

Breastfeeding: Nancy Bacon & Adrianna Halstead

Julie Dillard – Safe Sleep Workgroup

Tobacco: Jennifer Smith

Infant Injury Prevention: Lisa Rhoades

Data: Paul Patrick

Communications: Pamela Williams

Note - Tobacco, Data, and Communications are cross-cutting
