Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
Modulen IBD Complete Nutrition	100% casein based powdered formula, sole source nutrition during active phase of Crohn's Disease, oral or tube feed, Halal Available in powder	Management of Crohn's Disease ~Sole source nutrition during the active phase ~Nutrition support during remission phase	Approval level: contact state nutrition staff For adults and children over age five
MSUD 2 Mead Johnson	medical food powder that is free of the branched chain amino acids isoleucine, leucine and valine, higher level of protein equivalent than BCAD 1, Halal, suitable for someone with lactose intolerance Available in powder	~Maple Syrup Urine Disease (MSUD)	Approval level: contact state nutrition staff Use in children and adults
MSUD Maxamum Nutricia	medical food powder, free from isoleucine, leucine and valine, fat free, 40 grams of protein equivalent per 100 grams of powder Available in powder	~Maple Syrup Urine Disease (MSUD)	Approval level: contact state nutrition staff Use in children over 8 and adults
Nature's One Pediasmart SOY	Nutritionally complete organic soy based, corn syrup free, gluten free Contains milk and soy ingredients Available in powder	~Tube Feeding ~Oral motor feeding issues/aversions ~Malnutrition	Approval level:contact state nutrition staff

Oklahoma WIC Formulary

Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
Neocate Infant w DHA and ARA Nutricia	20 kcal/oz hypoallergenic, 100% free amino acids, 33% fat as MCT oil, Halal. Kosher Pareve Available in powder Similar to Alfamino, Elecare, Pur Amino	~Malabsorption syndrome ~GI impairment ~GERD (may require additional diagnosis) ~Food allergies (cow's milk, soy or intact protein)/FPIES ~Medical condition requiring an elemental formula such as: short bowel syndrome, necrotizing enterocolitis, eosinophilic esophagitis, etc.	Approval level: local agency nutritionist
Neocate Junior w/ Prebiotics Nutricia	30 kcal/oz hypoallergenic, 100% free amino acids, contains prebiotic fiber, 33% fat as MCT oil, nutritionally complete Available in powder Similar to Alfamino Jr and Elecare Jr	~Malabsorption syndrome ~GI impairment ~Food allergies (cow's milk, soy or intact protein)/FPIES ~Medical condition requiring an elemental formula such as: short bowel syndrome, necrotizing enterocolitis, eosinophilic esophagitis, etc.	Approval level: local agency nutritionist For individuals over 1 year
Neocate Junior Nutricia	30 kcal/oz hypoallergenic, 100% free amino acids, 33% fat as MCT oil, nutritionally complete, Halal. Kosher Available in powder Similar to Alfamino Jr, Elecare Jr, Pur Amino Jr	~Malabsorption syndrome ~GI impairment ~Food allergies (cow's milk, soy or intact protein)/FPIES ~Medical condition requiring an elemental formula such as: short bowel syndrome, necrotizing enterocolitis, eosinophilic esophagitis, etc.	Approval level: local agency nutritionist For individuals over 1 year

Oklahoma WIC Formulary

Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
Neocate Splash Nutricia	hypoallergenic, 100% free amino acids, nutritionally complete, gluten and casein free, for oral or tube feeding Available in ready to feed	~Malabsorption syndrome ~GI impairment ~Food allergies (cow's milk, soy or intact protein)/FPIES ~Medical condition requiring an elemental formula such as: short bowel syndrome, necrotizing enterocolitis, eosinophilic esophagitis, etc.	Approval level: local agency nutritionist For use in individuals over 1 year
Neocate Syneo Infant Nutricia	20 kcal/oz hypoallergenic, 100% free amino acids, contains prebiotics and probiotics, 33% fat as MCT oil, Halal. Kosher Pareve Available in powder Similar to Alfamino, Pur Amino, Elecare	~Malabsorption syndrome ~GI impairment ~GERD (may require additional diagnosis) ~Food allergies (cow's milk, soy or intact protein)/FPIES ~Medical condition requiring an elemental formula such as: short bowel syndrome, necrotizing enterocolitis, eosinophilic esophagitis, etc.	Approval level: local agency nutritionist
Nepro with CARBSTEADY Abbott	Nutritionally complete, carbohydrate blend for blood glucose management, high protein, high calorie, low in phosphorus, potassium, and sodium, For oral or tube feeding, Halal, Kosher Available in ready to feed	~Electrolyte and/or fluid restriction ~Dialysis ~Acute kidney injury ~Chronic renal failure	Approval level: contact state nutrition staff
Nutramigen w/Enflora LGG Toddler Mead Johnson	20 kcal/oz, extensively hydrolyzed casein, hypoallergenic, lactose, sucrose, and galactose-free toddler formula; contains probiotic Lactobacillus rhamnosus GG (LGG) Contains milk and soy ingredients Available in powder	~Over age 1 with medical need for 20 kcal/oz with: ~Food allergies (cow's milk, soy or intact protein)/FPIES ~Malabsorption syndrome	Approval level: local agency nutritionist

Oklahoma WIC Formulary

Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
Nutramigen with Enflora LGG Mead Johnson	20 kcal/oz, hypoallergenic casein hydrolysate, lactose, sucrose, and galactose-free; contains corn syrup solids, does not contain MCT oil. Contains milk and soy (extensively hydrolyzed casein) Available in powder and ready to feed Similar to Alimentum, Gerber Extensive HA, Pregestimil	~Food allergies (milk, soy or intact protein)/FPIES ~Malabsorption syndrome ~GERD (may require additional diagnosis)	Approval level: local nutritionist *Ready to feed needs state approval For use in infants and children If GERD a retrial may be warranted within the certification period
Nutren 1.0 with Fiber Nestle Health Science	1 kcal/ml Nutritionally complete, casein and soy protein blend, 14 grams fiber, tube feeding formula Milk and soy ingredients Available in ready to feed	~Increased calorie needs AND: ~Oral motor feeding issues/aversions ~Tube feeding	Approval level:contact state nutrition staff
Nutren 1.0 Nestle Health Science	1 kcal/ml Nutritionally complete, casein and soy protein blend, tube feeding formula Milk and soy ingredients Available in ready to feed	~Increased calorie needs AND: ~Oral motor feeding issues/aversions ~Tube feeding	Approval level: local agency nutritionist
Nutren 1.5 Nestle Health Science	1.5 kcal/ml Nutritionally complete, calorically dense, casein and soy protein blend, tube feeding formula Milk and soy ingredients Available in ready to feed	~Limited fluid tolerance ~Increased calorie needs AND: ~Oral motor feeding issues/aversions ~Tube feeding	Approval level:contact state nutrition staff
Nutren 2.0 Nestle Health Science	2.0 kcal/ml Nutritionally complete, calorically dense, casein and soy protein blend, tube feeding formula Milk and soy ingredients Available in ready to feed	~Fluid restriction ~Increased calorie needs AND: ~Oral motor feeding issues/aversions ~Tube feeding	Approval level:contact state nutrition staff

Oklahoma WIC Formulary

Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
Nutren Junior with Fiber Nestle Health Science	1 kcal/ml Nutritionally complete, 50% whey protein based, fiber blend, oral or tube feeding Milk and soy ingredients Available in ready to feed	~Oral motor feeding issues/aversions ~Tube feeding	Approval level: local agency nutritionist
Nutren Junior Nestle Health Science	1 kcal/ml Nutritionally complete, 50% whey protein based, oral or tube feeding Milk and soy ingredients Available in ready to feed	~Oral motor feeding issues/aversions ~Tube feeding	Approval level: local agency nutritionist
Nutren Pulmonary Nestle Health Science	1.5 kcal/ml nutritionally complete, calorically dense to meet energy needs in low volume, carbohydrate and fat profile to help reduce carbon dioxide production, 18% of calories from protein Milk and soy ingredients Available in ready to feed	~Chronic respiratory disease ~Ventilator dependency ~Fluid restriction	Approval level: contact state nutrition staff
NutriHep Nestle Health Science	1.5 kcal/ml, high in branched-chain amino acids, low in aromatic and ammonia-forming amino acids, high Calorie to nitrogen ratio, low in total fat, high in MCT Milk and soy ingredients Available in ready to feed	~Hepatic insufficiency ~Liver disease	Approval level: contact state nutrition staff

Oklahoma WIC Formulary

Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
OA 1 Mead Johnson	Organic acid (OA) 1 infant formula and medical food powder, free of essential amino acids isoleucine, methionine, threonine and valine, increased levels of B vitamins for cofactor production, Halal Available in powder	~Propionic or methylmaloric acidemia (organic acidemias)	Approval level:contact state nutrition staff For Infants and Toddlers
OA 2 Mead Johnson	Organic acid (OA) 2 medical food powder, free of essential amino acids isoleucine, methionine, threonine and valine, increased levels of B vitamins for cofactor production, Halal Available in powder	~Propionic or methylmaloric acidemia (organic acidemias)	Approval level:contact state nutrition staff For children and adults
Osmolite 1 Cal Abbott	Nutritionally complete, long or short term tube feeding, fat blend of canola, MCT and corn oils, Kosher, Halal Available in ready to feed	~Increased protein needs with intolerance to hyper-osmolar feedings and calorie needs less than 2000 kcal/day	Approval level:contact state nutrition staff For women and children
Osmolite 1.2 Cal Abbott	Nutritionally complete, long or short term tube feeding, increased protein and calories, fat blend of high oleic safflower, canola and MCT oils, Kosher, Halal Available in ready to feed	~Increased calorie or protein needs with intolerance to hyperosmolar feedings	Approval level:contact state nutrition staff For women and children
Osmolite 1.5 Cal Abbott	Nutritionally complete, long or short term tube feedings, increased protein and calories	~Increased calorie and protein needs, or for those with limited volume tolerance	Approval level:contact state nutrition staff For women and children

Oklahoma WIC Formulary

Formula Name	Description	Indications For Use (not limited to)	Staff Instructions: May issue for 1 certification period unless otherwise noted
Oxepa	1.5 kcal/ml, nutritionally complete, tube-feeding only, calorically dense for fluid restricted patients, elevated antioxidants, Kosher, clinically shown to modulate the inflammatory response in critically ill, mechanically ventilated patients. Available in ready to feed	~Mechanically ventilated patients, especially those with ~SIRS (systemic inflammatory response syndrome; eg, trauma, burns) ~ALI (acute lung injury) ~ARDS (acute respiratory distress syndrome)	Approval level:contact state nutrition staff
PediaSure 1.5 Cal with Fiber Abbott	1.5 kcal/ml, complete nutrition, calorically dense, oral or tube feeding, Kosher, Halal Available in ready to feed Similar to Boost Kids Essentials 1.5 with fiber	~At risk for malnutrition due to medical condition ~Require a higher caloric density ~Have fluid restrictions ~Oral/motor feeding issues and aversions	Approval level: local agency nutritionist *Formula cannot be provided for nutrient enhancement or weight management purposes ONLY.
PediaSure 1.5 Cal Abbott	1.5 kcal/ml, complete nutrition, calorically dense, oral or tube feeding, Kosher, Halal Available in ready to feed Similar to Boost Kids Essentials 1.5	~At risk for malnutrition due to medical condition ~Require a higher caloric density ~Have fluid restrictions ~Oral/motor feeding issues and aversions	Approval level: local agency nutritionist *Formula cannot be provided for nutrient enhancement or weight management purposes ONLY.
PediaSure Enteral Formula Abbott	1.0 kcal/ml, nutritionally complete, for tube feeding, Kosher, Halal, suitable for lactose intolerance Milk and soy ingredients Available in ready to feed	~Oral/motor feeding issues and aversions ~At risk for malnutrition due to medical condition ~Tube feeding	Approval level: local agency nutritionist For children 1 to 13 years *Formula cannot be provided for nutrient enhancement or weight management purposes ONLY.
