2. Teen Pregnancy Prevention
3. Community networking and information sharing
4. Youth education and empowerment
5. Providing education, resources and services to families
6. School Readiness
7. Alcohol tobacco and other drug prevention
8. Teen Pregnancy Prevention

About Us...

The Pittsburg County Local Service Coalition is a large and diverse group of agencies, programs, businesses, organizations and individuals with the common goal of making Pittsburg County a healthier place to live. They have very active committees including SETFOC (SouthEast Tobacco Free OK Coalition) and WAIT (Wanting Abstinence In Teens).

They are dedicated to providing their state recognized Family Outreach University classes twice a year to parents and community members. This project brings education and empowerment on current topics and issues to the families and parents of the area at no cost. The coalition has also partnered with member agencies to provide such programs and projects as Smart Start, Strengthening Families, Systems of Care, and much more to Pittsburg County. LSC also works to provide opportunities, empowerment and resources to local youth. From 2 Much 2 Loose, SWAT, the Youth Advisory Board and Camp PLEA students have the chance to take an active role in becoming educated and involved in health related issues in their community.

The Local Service Coalition is ever growing their partnership and contribution to their community.

Significant Outcomes:

- ◆ Increased of tobacco control policies and ordinances
- ◆ FOR-U classes held for community
- ◆ Support active Youth Advisory Board
- ◆ Completed a community meth prevention action plan
- ◆ Online resource directory and community calendar
- ◆ Strengthening Families Project
- ◆ School Readiness Activities Held
