SECTION C
BRIEF INTERVIEW FOR MENTAL STATUS (BIMS)

IMPORTANT NOTE
Cue Cards for Section C can only be used if the resident’s primary method of communication is in written format. Otherwise, the interview should be conducted without cue cards.
I would like to ask you some questions, which I will show you in a moment.

We ask everyone these same questions.

This will help us provide you with better care.

Some of the questions may seem very easy, while others may be more difficult.

We ask these questions so that we can make sure that our care will meet your needs.
I have written 3 words for you to remember.

Please read them.

Then, I will remove the card and ask you to repeat or write down the words as you remember them.
