

ABC AMBULANCE SERVICE / RUN LOG

2011		TIMES												
Run #	Date	PSAP	Rcv'd	Dispatched	Enroute	Arrive Scene	Arrive Patient	Left Scene	Arrive Dest	Available	Depart From	Scene Location	Patient Name	Nature of Call
255211006	01/22	0300	0301	0303	0306	0308	0310	0325	0344	0410	Base	212 Wilson	Campbell, Connie	Chest Pain, Diaphoresis

Run Number – number used in OKEMIS

Date – Date of call

PSAP - “Public Safety Access Point” – usually the dispatch center / sometimes an operator that transfers to an emergency system –ie: EMS, Police, Fire

Rcv'd – time call received by 911 operator

Dispatched – time EMS dispatched

Enroute – time unit actually moved towards the scene

Arrive Scene – time arrived at location of event

Arrive Patient – time patient contact is physically made by crew

Left Scene – time the unit pulled out from the scene with patient loaded

Arrive Destination – time unit arrives at final destination of patient – ie: hospital, ER

Available – time when unit has completed all paperwork and is ready to take a new call

Depart From- location where unit originates from. Ie: Base, 7-eleven, post 6, etcetera

Patient Name – patient name

Nature of Call – what was told from dispatch (NOT what was found!!)
