

Oklahoma's National Registry -- Pass/Fail Report

The statistics below were obtained from the *National Registry of EMT's* National, State and Program downloads. We utilized the Pass/Fail Report for all of this data. Other reports available to Training Programs are: Cognitive Exam Results and Topical Area Performance. These informative reports will indicate the results of the several 'sub test' sections scores from the Computer Based Testing examinations. Please pay close attention to the National and State averages, as your Training Program should meet or exceed these standards. The program data shown below is from the period of January 1, 2013 to December 31, 2013. A pass rate with a low number of students may not be indicative of a program's capabilities.
