

Oklahoma

The Maternal and Child Health Federal-State Partnership

The Title V Program is administered by two state agencies. The Oklahoma State Department of Health (OSDH) administers programs for pregnant women, mothers, infants, children and their families through the Maternal and Child Health Service (MCH). MCH organizationally consists of the Child and Adolescent Health Division, Perinatal and Reproductive Health Division and MCH Assessment. The Oklahoma Department of Human Services (OKDHS) administers the Children with Special Health Care Needs (CSHCN) Program through the Health Related and Medical Services of the Family Support Services Division.

MATERNAL & CHILD HEALTH (MCH) MEASURES

Title V - Maternal Child Health National Performance Measures	State 2009 Results	State 2014 Goal
The percent of screen positive newborns who received timely follow up to definitive diagnosis and clinical management for condition(s) mandated by their State-sponsored newborn screening programs.	100.0%	100%
The percent of children with special health care needs age 0 to 18 years whose families partner in decision making at all levels and are satisfied with the services they receive. (CSHCN survey)	56.9%	65.1%
The percent of children with special health care needs age 0 to 18 who receive coordinated, ongoing, comprehensive care within a medical home. (CSHCN Survey)	49.7%	52.7%
The percent of children with special health care needs age 0 to 18 whose families have adequate private and/or public insurance to pay for the services they need. (CSHCN Survey)	61.6%	70.7%
Percent of children with special health care needs age 0 to 18 whose families report the community-based service systems are organized so they can use them easily. (CSHCN Survey)	90.3%	97%
The percentage of youth with special health care needs who received the services necessary to make transitions to all aspects of adult life, including adult health care, work, and independence.	43.7%	51%
Percent of 19 to 35 month olds who have received full schedule of age appropriate immunizations against Measles, Mumps, Rubella, Polio, Diphtheria, Tetanus, Pertussis, Haemophilus Influenza, and Hepatitis B.	73.6%	84%
The rate of birth (per 1,000) for teenagers aged 15 through 17 years.	31.0	29
Percent of third grade children who have received protective sealants on at least one permanent molar tooth.	39.7%	42.8%
The rate of deaths to children aged 14 years and younger caused by motor vehicle crashes per 100,000 children.	6.8	4.7

The percent of mothers who breastfeed their infants at 6 months of age.	30.5%	33.2%
Percentage of newborns who have been screened for hearing before hospital discharge.	96.8%	98%
Percent of children without health insurance.	12.6%	12%
Percentage of children, ages 2 to 5 years, receiving WIC services with a Body Mass Index (BMI) at or above the 85th percentile.	17.4%	16.9%
Percentage of women who smoke in the last three months of pregnancy.	18.5%	17.7%
The rate (per 100,000) of suicide deaths among youths aged 15 through 19.	12.7	8.5
Percent of very low birth weight infants delivered at facilities for high-risk deliveries and neonates.	80.8%	84%
Percent of infants born to pregnant women receiving prenatal care beginning in the first trimester.	76.5%	79%
Title V - Maternal Child Health National Outcome Measures	State 2009 Results	State 2014 Goal
The infant mortality rate per 1,000 live births.	8.5	7.3
The ratio of the black infant mortality rate to the white infant mortality rate.	2.5	2.2
The neonatal mortality rate per 1,000 live births.	4.6	4.5
The postneonatal mortality rate per 1,000 live births.	2.7	2.7
The perinatal mortality rate per 1,000 live births plus fetal deaths.	9.0	8.5
The child death rate per 100,000 children aged 1 through 14.	28.8	27.4
Title V - Maternal Child Health State Performance Measures	State 2009 Results	State 2014 Goal
The percent of women who have an unintended pregnancy (mistimed or unwanted) resulting in live birth.	50.3%	*
The percent of adolescents grades 9-12 smoking tobacco products	22.6%	*
The number of families with a child with special health care needs receiving respite	67	*

**State Population:
3,687,050
Live Births: 54,784**

care provided through the CSHCN program.		
The extent to which the MCH program area develops and maintains the capacity to access and link health-related data relevant to targeted MCH populations.	16	*
The percent of children with special health care needs who are Medicaid eligible and report receiving routine dental care.	45.5%	*
The percent of adolescents grades 9-12 not using alcohol during the past 30 days.	61.0%	*
The percent of adolescents overweight and obese (greater than or equal to 85th percentile of gender-specific body mass index [BMI] distribution	30.6%	*
The percentage of full-term infants who are put to sleep on their backs.	64.0%	*

Indicators for the annual reporting year may be unavailable or provisional at the time of reporting and may be updated or finalized throughout the year. Please contact the State for details about the indicator data. Objectives for 2014 were not provided by states for the 2011 application, since new state performance measures are being created because of the 2010 needs assessment.

TITLE V FEDERAL - STATE BLOCK GRANT EXPENDITURES

By Number of Individuals Served and Population Group			
Populations Served	Number of Individuals Served	Expenditures FY 2009	
Pregnant Women	76,784	\$3,283,634	15.5%
Infants < 1 year old	74,000	\$3,763,664	17.7%
Children 1 to 22 years old	596,000	\$8,800,146	41.4%
Children with Special Healthcare Needs	26,745	\$3,836,933	18.1%
Others	407,000	\$0	0%
Administration		\$1,568,884	7.4%
Totals	1,180,529	\$21,253,261	100%
By Source of Funds			

FAMILY PARTICIPATION IN CSHCN PROGRAM

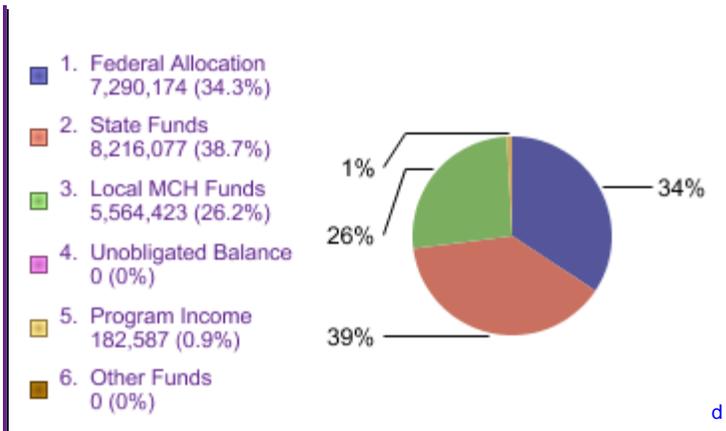

Family members participate on advisory committee or task forces and are offering training, mentoring, and reimbursement, when appropriate. 2

Financial support (financial grants, technical assistance, travel, and child care) is offered for parent activities or parent groups. 2

Family members are involved in the Children with Special Health Care Needs elements of the MCH Block Grant Application process. 2

Family members are involved in service training of CSHCN staff and providers. 2

Family members hired as paid staff or consultants to the State CSHCN program (a family member is hired for his or her expertise as a family member). 3

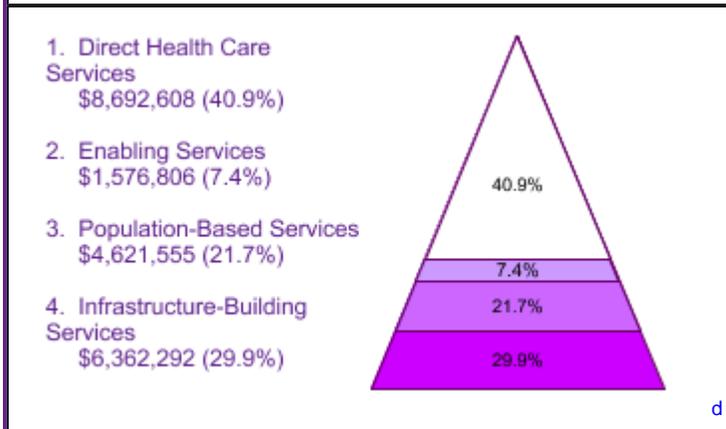

Family members of diverse cultures are involved in all of the above activities. 1
