TOTS

THE OKLAHOMA TODDLER SURVEY

WHAT?

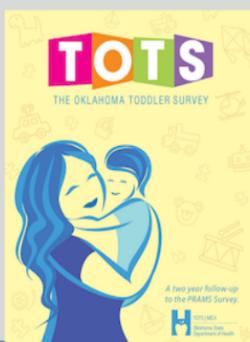

TOTS re-surveys Oklahoma Pregnancy Risk Assessment Monitoring System (PRAMS) mothers the month their child turns two. It collects statewide, population-based data on the health experience of Oklahoma's toddlers as well as maternal experiences. TOTS was created by Oklahoma in 1994.

WHY?

- Help improve health care
- Help families learn more about being healthy and safe
- Develop health programs and policies to make better use of resources

HOW CAN PROVIDERS HELP?

Let women know that if they completed PRAMS they may receive this survey in the mail. Their answers are important!
