

Comanche County
Comanche County Turning Point
Established 2003

At a Glance

The Comanche County Turning Point Partnership began in late 2003 and started with a bang. We were focused on addressing obesity and sedentary lifestyles in our community. As a result we hosted multiple community walks. We spent most of 2005 re-energizing and deciding how we could make the most impact on improving the health of our county residents. We are excited about moving forward in 2006.

Key Activities of 2005

- Expand Action Plan
- Expand partnership membership
- Community Walks

Priorities of the Partnership
