

**Kingfisher County**  
**Kingfisher Community Collaborative, Inc.**  
Established 1997

**At a Glance**

Kingfisher Community Collaborative, Inc. was initially organized in 1997 and worked to assist our schools and improve communication among the many area help agencies and organizations. Since then we have expanded our priorities and became a Turning Point partnership. We, like many partnerships, have had to stop and ask ourselves “what now”. We recently went through a strategic planning process and have begun developing our action plan for the next couple of years. We look forward to what the future holds for our partnership and more importantly our communities.

**Key Activities of 2005**

- Strategic Planning
- School Supply Drive
- Community Walks
- Adolescent Health Conference
- 5<sup>th</sup> Grade Wellness Program

**Priorities of the Partnership**

- Responsible Sexual Behavior
