

Kiowa County
Kiowa County Health Committee
Established 2004

At a Glance

The Kiowa County Health Committee has developed an action plan to begin addressing issues surrounding obesity, sedentary lifestyles, and substance abuse. The committee is one of many other committees working to develop a comprehensive plan for Kiowa County. Included in this plan is to build a walking track around the football field. This track will be accessible to all residents and will allow the school to host track competitions. The committee will promote the availability of all walking tracks in the Hobart area in an effort to increase physical activity. Another goal of the health committee is to begin engaging the business community through promoting the Oklahoma Certified Healthy Business program.

Key Activities of 2005

- Developed Action Plan
- Walking Track

Priorities of the Partnership
