## About Us...

The Marshall County "Partners In Progress" community coalition was formed in the Spring of 2006. Although very young in age, this community has identified leadership, developed by-laws, and is currently working on their strategic planning process. In less than a year, they have been awarded two grants to address nutrition, health and sedentary lifestyles with minority populations and to address fire prevention safety with the Madill Fire Department. Members are dedicated to improving the health of the community and it's citizen as well as provide positive experiences, guidance, and leadership for their local youth.
