

Pittsburg County Local Service Coalition

Pittsburg County

Coalition Priorities:

1. Community networking and information sharing
2. Youth education and empowerment
3. Providing education, resources and services to families
4. Alcohol tobacco and other drug prevention
5. Teen Pregnancy Prevention

About Us...

The Pittsburg County Local Service Coalition is a large and diverse group of agencies, programs, businesses, organizations and individuals with the common goal of making Pittsburg County a healthier place to live. Since their rebirth in 2004 they have worked very hard to bring community resources together, identify and fill gaps providing needed services to the area they serve. The group is an ever growing and changing coalition that is constantly expanding and taking on new projects and goals.

They are dedicated to providing their state recognized Family OutReach University classes twice a year to parents and community members. This project brings education and empowerment on current topics and issues to the families and parents of the area at no cost.

LSC also works to provide opportunities, empowerment and resources to local youth. From 2 Much 2 Loose, the Youth Advisory Board and Camp PLEA students have the chance to take an active role in becoming educated and involved in health related issues in their community.

The coalition has also partnered with member agencies to provide such programs and projects as Smart Start, Strengthening Families, Systems of Care, and much more to Pittsburg County. The Local Service Coalition is ever growing their partnership and contribution to their community.
