

Craig County Community Partnership

Craig County
2008

Coalition Priorities:

1. Mental Health & Substance Abuse
2. Access to children's health
3. Physical Fitness & Nutrition

About Us...

Alcohol use by underage drinkers is a persistent public health problem in the United States, and alcohol is the most commonly used drug among adolescents. That is why every year Craig County Community Partnership puts together education and promotion at events for youth like the Alcohol Reality Day in April and Red Ribbon Week in October.

Since 2007, CCCP started the Get Mooving Day Camp, a camp provided to students with disabilities, teaching nutrition, physical activity and substance abuse prevention.

After several clothing sale fundraisers, the children's free clinic opened on June 16. A group that spun off of CCCP started an adult free clinic, and had its grand opening on September 25, 2008.

On June 10th, the Craig County Community Partnership became part of the Vinita Chamber of Commerce after many years of holding their meetings at the chamber location.

Partners:

Arvest Bank
The Junction ISP
White Oak Public Schools
