About Us...

When the Caddo County Interagency Coalition (CCIC) was originally established, the intent was one of information sharing and resource networking. Members were a group of concerned health professionals interested in finding out about services available to their clients and sharing information about their own agencies. CCIC has grown and expanded their vision and become an action oriented coalition. CCIC is committed to building a healthier future for our children of Caddo County by changing public attitudes and public policies and implementing effective programs.
