A Lil' Bit About Us....

Jackson County Community Health Action began meeting in 2003. We began like many other Turning Point partnerships and that is by doing a community needs assessment then developing a strategic plan to address the needs identified in that assessment. In 2003 we developed a three year plan and was very excited to realize that we accomplished many of the goals we set. This year, we are developing a two year plan and look forward to continuing our efforts to become "the healthiest county in Oklahoma".
