

Family Health Coalition

Tulsa County

2013

About Us...

Tulsa County was chosen as a pilot Turning Point community in late 1990s. In July 2011, Family Health Coalition became an official Turning Point partner.

Since that time the coalition's membership decided to expand its focus to include community based nutrition and fitness concerns. The Family Health Coalition, in partnership with the Tulsa Health Department, was one of 15 grantees to be awarded with a Communities of Excellence in Nutrition and Fitness grant through the TSET. The Tulsa County Wellness Partnership (TCWP), a committee of the Family Health Coalition, was formed to carry out the work of this grant. TCWP is dedicated to changing policies and environments in Tulsa county to make healthy nutrition and fitness the easy choice in schools,

work places and communities. TCWP works with all these groups to implement effective policies and programs to promote opportunities for healthy eating and active living.

The Coalition is a participating partner in Tulsa Healthy Start and Tulsa Fetal Infant Mortality Review (FIMR).

In part due to the combined advocacy efforts of TCWP, Bicycle Pedestrian Advisory Committee, & the Accessible Transportation Coalition, funds have been allocated for bike/pedestrian master plan projects and sidewalks/ADA projects in draft city plan. TCWP also funded production of

INCOG initiative Side Walk Stories

Partnership Priorities:

The Coalition's current work focuses on

- Nutrition & Physical Activity
- Peri-natal Care and Women's health
- Family Health including Fatherhood issues,
- Social Marketing/Media Advocacy
- Complete Streets
- Tobacco Use Prevention (Tobacco Free Coalition of Tulsa County)

Mission Statement

The Family Health Coalition is committed to working together through broad-based community representation to optimize the health and well-being of individuals and families who are underinsured, uninsured and Medicaid enrolled—women of childbearing age, infants and families by establishing a system of universal and comprehensive quality health education, prevention, services and support.
