

Prescription drug overdoses

kill more Oklahomans
than motor vehicle
crashes.

**More overdose
deaths involve
prescription painkillers
than alcohol and all
illicit drugs combined.**

911

**If you suspect someone
is experiencing an
overdose, call 911
immediately.**

211

**For treatment referral,
call 211.**

REMEMBER

- Only take medications as prescribed.
- Never share or sell prescription drugs.
- Properly dispose of unused, unneeded or expired medications.
- Secure your medications to avoid theft.
- Naloxone is a safe and effective drug that reverses an opioid overdose. Talk to your doctor or pharmacist.

MEDICATION DISPOSAL
