

Wagoner Family Service Council

Wagoner County

2009

Coalition Priorities:

1. Tobacco Prevention
2. Health
3. Seniors
4. Systems of Care

About Us...

As Wagoner Family Service Council is about to enter 2010, they have been working on their strategic plan. They have identified areas that need attention including teen pregnancy, mental health, transportation, access to grocery stores and temporary housing.

The health committee has been hard at work at educating the community on Health Equity. The senior committee put on their second annual Senior Fun Day which turns out to be a big hit everything from makeup to medicine. The usual Back to School Health Fair switched to the Back to School Barber Bash. In three hours, 52 haircuts were given by three volunteer stylists. WFSC is looking at putting together a resource guide with the help of 211.

The WAYUP youth conference continued this year, however they are looking at making significant changes for 2010. Family Fun Day, which has been a WFSC event for about ten years was once again a success even though due to rain it was switched from May 5 to Memorial Day weekend.

The Tobacco Prevention continues to make great strides in Wagoner County from passing city ordinances to media with using local athletes called *Addicted to the Game*.

Partners:

Wagoner Co. Health Department	Wagoner Community Hospital
Bill Willis APRC	OCCY
Wagoner Co. DHS	Thunderbird Youth Academy
