

Whole School, Whole Community, Whole Child (WSCC)

NUTRITION ENVIRONMENT & SERVICES

Nutrition Environment Services Component:

The school nutrition environment provides students with opportunities to learn about and practice healthy eating through nutrition education, messages about food in the cafeteria and throughout the school campus, and available food and beverages, including in vending machines, “grab and go” kiosks, school stores, concession stands, food carts, classroom rewards and parties, school celebrations, and fundraisers. School nutrition services provide meals and snacks that meet federal nutrition standards. All individuals in the school community can support a healthy school nutrition environment.
