

# Whole School, Whole Community, Whole Child (WSCC)

## PHYSICAL ENVIRONMENT

### Physical Environment Component:

A healthy and safe physical school environment promotes learning by ensuring the health and safety of students and staff. A healthy school environment will address a school's physical condition during normal operation as well as during renovation, protecting occupants from physical threats, biological and chemical agents in the air, water, or soil, as well as those purposefully brought into the school.

## Resources

### 24/7 Tobacco Free Schools
