HOW YOU CAN HELP*

- Identify and support people at risk of suicide.
- Promote safe and supportive environments. This includes safely storing medications and firearms to reduce access among people at risk.
- Offer activities that bring people together so they feel connected and not alone.
- Foster peer norms that support help-seeking.
- Ask someone you are worried about if they're thinking about suicide.
- Be there with them. Listen to what they need and follow through on offered support.
- Help them connect with ongoing support.
- Follow up to see how they're doing.
- Support the development of relationships between youth and positive adults in their lives.
- Prevent future risk of suicide among those who have lost a friend or loved one to suicide.
