

Oklahoma Office of Homeland Security

Homeland Security Exercise Evaluation Program (HSEEP) Mobile Training Course

Oklahoma City, OK
May 11-13, 2010

Course Overview: The Homeland Security Exercise and Evaluation Program (HSEEP) Training Course is an intermediate-level training course that incorporates exercise guidance and best practices from the HSEEP Volumes. The HSEEP Course is an interactive course that allows participants to share personal lessons learned and best practices while gaining practical experience. In addition to the instructor-led course presentations, the course includes small group activities, videos, and group discussions. The course also provides overviews of HSEEP-related initiatives such as technology (e.g., the HSEEP Toolkit) and capabilities-based planning (e.g., Target Capabilities List). This blended approach will give participants hands-on experience that readily translates to real-world exercise responsibilities. Activities include creating exercise documentation, conducting exercise planning conferences and briefings, and practicing exercise evaluation. The course has been developed by the U.S. Department of Homeland Security (DHS) using input from Federal partners, subject matter experts (SMEs), and State and local representatives.

Prerequisites: IS-120.A An Introduction to Exercises, IS-700 NIMS, An Introduction and IS-800 NRP, An Introduction

Participant Audience: Law enforcement, emergency medical services, emergency management agency, fire service, HAZMAT, public works, governmental administrative, public safety communications, health care and public health.
