

Oklahoma Office of Homeland Security
Enhanced Threat and Risk Assessment (MGT-315)
Oklahoma City, OK
August 2-3, 2011

Course Overview: The Enhanced Threat and Risk Assessment Course will augment the process taught in the current Department of Homeland Security/Office of Grants and Training Threat and Risk Assessment course. It provides managers of emergency responders with enhanced skills to conduct a comprehensive assessment of the critical vulnerabilities in the jurisdiction and develop an action plan to prevent, reduce and/or mitigate the potential damage from a Chemical, Biological, Radiological/Nuclear, and Explosive (CBRNE)/terrorism incident. The participants will conduct a detailed assessment of potential methods of CBRNE delivery against the jurisdiction's potential targets. Participants will then apply a systematic process to assess selected infrastructure, facilities, systems, and special events for methods and measures to prevent, reduce and/or mitigate vulnerabilities.

Prerequisites: Threat & Risk Assessment course (T&RA) and a CBRNE/terrorism incident awareness course

Participant Audience: Public safety communication, law enforcement, fire services, emergency medical service, hazardous material, health care, governmental administrative, public health, public works and emergency management
