

Oklahoma Office of Homeland Security

Homeland Security Exercise and Evaluation Program (HSEEP)

Training Course (L-146)

Oklahoma City, OK
December 4-6, 2012

Course Overview:

The Homeland Security Exercise and Evaluation Program (HSEEP) Training Course is an intermediate level training course that incorporates exercise guidance and best practices from the HSEEP Volumes. The HSEEP Training Course is an interactive course that allows participants to share personal lessons learned and best practices while gaining practical experience. In addition to the instructor-led course presentations, the course includes small group activities, videos and group discussions. The course also provides overviews of HSEEP-related initiatives such as technology (e.g., the HSEEP Toolkit) and capabilities-based planning (e.g., Target Capabilities List). This blended approach will give participants hands-on experience that readily translates to real-world exercise responsibilities. Activities include creating exercise documentation, conducting exercise planning conferences and briefings, and practicing exercise evaluation. The course has been developed by the U.S. Department of Homeland Security using input from Federal partners, subject matter experts, and state and local representatives.
