All-Hazards Incident Management Team

Communications Technician Course

Oklahoma City, OK

October 15-19, 2012

Course Overview: This curriculum trains emergency responders on practices and procedures common to radio communication technicians during all-hazards emergency operations and will help communications technicians to work within the Incident Command System (ICS) organizational structure with standardized operational and technical procedures. The COMT Course is targeted for all local, regional, state and federal cross disciplinary emergency response professionals and coordination/support personnel with a communications background. Individuals who are assigned responsibility for a Strategic Technology Reserve (radio cache, mobile communications vehicle or other deployable communications assets) are encouraged to attend.

Prerequisites: Students must complete IS-700.a, IS-800.b, ICS-100 and ICS-200. ICS-300 is recommended but not required. Students will be required to submit an application packet of the Oklahoma AHIMT Position Specific Application (below), a professional resume documenting communications experience and copies of certificates for the required courses to OKOHS by fax (405) 425-7295.

Participant Audience: This course is targeted to students who have technical aptitude, but not necessarily strong technical experience. Students should leave the class with a strong foundational knowledge of incident communications processes and systems and some basic skills.
