

Oklahoma Office of Homeland Security

Medical Management of CBRN Events PER-211

Chickasha, OK
October 16, 2013

Course Overview: Participants completing this course will be able to properly perform patient triage, decontamination, treatment, and transportation in the event of exposure to chemical, biological, radiological, nuclear and explosive (CBRNE) weapons. The course consists of facilitated discussions, small group exercises, hands-on activities, and task-oriented practical applications. Course participants will use both state-of-the-art adult and pediatric human patient simulators to promote critical thinking skills while utilizing the RAPID – Care concept.

Upon completion of the course, participants will be able to demonstrate the skills necessary for proper detection and monitoring, triage, mass decontamination, treatment, stabilization, self-protection, and cross-contamination prevention.

Participant Audience: Course Audience may include: EMS technicians, Fire and Hazmat Personnel, Physicians/Physicians Assistants, Nurses, and Hospital/Medical Treatment Facility Personnel.

CLEET Accredited Course: 16 credit hours.

Prerequisites: It is recommended that participants complete two online courses before attending the course. These Internet courses are available at no cost to the participant. The courses are AWR-111 Basic EMS Concepts for WMD Incidents and AWR-160 WMD/Terrorism Awareness for Emergency Responders

Date and Location:
