Introduction

This Strategic Plan identifies 5 goals and 16 key performance measures developed to enable the Oklahoma Accountancy Board (OAB) to meet its mission to protect the public. By statutory mandate, protection of the public shall be the OAB’s highest priority in the exercise of its licensing, regulatory, and disciplinary functions. Whenever the protection of the public is inconsistent with other interests sought to be promoted, the protection of the public shall be paramount. In meeting its mandate and mission, the OAB strives to deliver the highest standards of service to all concerned, affected, and interested parties.

This plan has been prepared in compliance with O.S. Title 59, Sections 15.1 through 15.38, also known as the Oklahoma Accountancy Act (OAA), as well as the OAB’s rules and it is consistent with the direction stated in the Office of State Finance’s Strategic Planning Instructions document.

This plan is the outcome of planning workshops conducted by the OAB staff, with direction from Members of the Board. The plan is intended to be staged over a five-year period and will be updated as warranted. It reflects the mandates of recent reform legislation, sunset review priorities, implementation of practice privilege, consideration of a mandatory peer review process, and it takes into account future resource needs.
**Mission Statement**

The mission of the Oklahoma Accountancy Board is to safeguard the public welfare by prescribing the qualifications, monitoring the annual reporting requirements and regulating the professional conduct of individual registrants in public practice and firms authorized to engage in the practice of public accounting in the state of Oklahoma.

**Vision Statement**

To be a premier regulatory agency that provides exemplary consumer protection and customer service, fosters high ethical standards, promotes continuous quality in the practice of public accountancy, operating with maximum efficiency through the effective use of technology and the implementation of best business practices.
Core Values and Guiding Principles

♦ **Integrity**: Given the nature and significance of the OAB’s mission under the Act, it is the personal responsibility of the OAB and staff to maintain the highest possible ethical standards.

♦ **Quality**: The OAB is committed to improving the delivery of services to the public and to practitioners, maintaining accuracy and thoroughness while consistently applying appropriate rules and laws.

♦ **Accountability**: The OAB and staff accept responsibility for their actions and decisions and are committed to providing accurate, clear, timely and consistent information to the public and to practitioners.

♦ **Flexibility and Innovation**: The OAB will be forward-thinking, anticipate risks, and respond to rapidly emerging issues with its flexible and innovative programs and operations.

♦ **Effectiveness and Efficiency**: The OAB recognizes it is primarily supported by fees from registrants and understands its responsibility to manage resources effectively and efficiently.

♦ **Teamwork**: The OAB will maintain a team of outstanding, highly qualified, experienced professionals, who are expected to collaborate in a work environment based upon cooperation and trust.
Agency Overview

The first accountancy law was enacted by the Oklahoma Legislature in 1917 and the Oklahoma Accountancy Board was recreated by the Legislature in 1992 in accordance with the Oklahoma Sunset Law to administer the provisions of the Oklahoma Accountancy Act for the protection of the public.

The OAB is composed of five certified public accountants and one public accountant who serve for five-year terms and one member who represents the public and serves coterminous with the Governor. All members are appointed by the Governor and confirmed by the Senate, and are responsible for promulgating rules of general application, setting forth guidelines for agency operations and governing the professional practices of the registrants. The OAB uses a committee structure to assist in the performance of its duties. The committees generally include two to three Board members. At times, non-Board CPAs or other professionals are also appointed for their expertise in relevant areas. All committee members are appointed by the presiding officer of the OAB. The committees do not have binding authority, but make recommendations to the full Board for consideration and approval.

The OAB regulates the accounting profession for the public protection. Licensed practitioners are the Certified Public Accountant (CPA) and the Public Accountant (PA). By authority of the OAA the OAB:

- Is responsible for the administration of the National Uniform CPA Examination to Oklahoma candidates.
- Certifies, licenses, and renews licenses of individual CPAs and PAs;
- Registers CPAs, PAs and, firms;
- Receives and investigates complaints and takes disciplinary action against licensees for violation of State statute and the OAB's rules;
- Monitors compliance with continuing education requirements;
- Assures compliance with the Peer Review Program which monitors the work of CPAs, PAs, and firms that hold permits and perform audits and reviews to ensure adherence to professional standards; and
- Promulgates rules establishing the qualifications for obtaining a permit to practice public accounting in Oklahoma.

Given that the primary purpose of the OAB is to protect and serve the public, the populations most directly affected by the OAB and its licensees are those individuals and organizations who:
- Rely on financial information prepared or examined by CPAs, PAs, and firms;
- Use the services of CPAs, PAs, and firms in public practice; and
- Employ CPAs and PAs in their own organizations.

The populations governed by the OAB are:
- Examination Candidates;
- CPAs and PAs; and
- Public Accounting Firms

In addition, the OAB has direct impact on:
- Providers of continuing professional education
- Higher education institutions
- Other regulatory agencies
- Associations of accounting professionals
- Individuals interested in taking the CPA examination
- Sponsoring organizations for the Peer Review program, and
- Peer Reviewers

The OAB currently regulates nearly 12,000 individual licensees and approximately 930 firms. The OAB is self-funded, supported by fees imposed upon the professional community it regulates. The OAB draws no monies from the General Fund of the State of Oklahoma. Renewal fees fund the Enforcement and the Continuing Professional Education Programs, as well as general administrative functions.

The objective of the OAB’s Enforcement Program is to protect consumers, minimize substandard practice, rehabilitate licensees, and discipline licensees as warranted. The OAB is unique in its authority to discipline not only individuals but also firms. This program is assisted with professional investigative CPAs under contract.

Enforcement activities include investigating complaints against persons and firms practicing without a license and taking disciplinary actions against licensees for violations of State Statute and the OAB’s rules. Complaints are divided into two main categories administrative and disciplinary.

Administrative complaints result from non-payment of annual renewal fees, failure to complete the annual permit or registration application, failure to satisfy peer review requirements, or insufficient continuing professional education hours. These complaints, by sheer volume, are a significant workload for all divisions, from initiation of a complaint to its final resolution.

Disciplinary complaints are fewer in number, but far greater in complexity. These cases generally require moderate to extensive investigation, proceed to informal conferences and may eventually become case hearings before an Administrative Law Judge or the OAB.
Significant environmental factors currently affecting the OAB include:

- A relatively stable resident regulated population;
- A high likelihood of an increasing number of out-of-state individuals and firms becoming subject to Oklahoma regulatory authority due to consumer and licensee mobility coupled with online service capabilities;
- Varying levels of consumer confidence in the professionalism of CPAs and PAs;
- Lack of attention by a small proportion of the licensed population to the administrative requirements of the OAA or the OAB’s rules;
- Increasing mobility of licensees on a national scale;
- National and multi-state variability in regulation and regulatory perspectives that may increase regulatory challenges and may create unnecessary burdens on multi-state practice;
- The increased complexity of professional requirements which increases implementation costs to the small business consumers of professional services thereby potentially increasing instances of technical non-compliance or migration of licensees to an unlicensed status; and
- The implementation of a new statewide licensing system with insufficient supporting IT resources for full implementation, ongoing maintenance and future enhancements.

The Licensure Program ensures that individuals possess the necessary knowledge and qualifications to competently and ethically practice public accounting. The examination and license elements of the program provide entry level competence. Because of the dynamic, progressive nature of the profession, licensees must continually update their skills and knowledge to remain qualified to practice. The OAB’s Continuing Education Program focuses on ensuring that licensees maintain the current professional knowledge necessary for competent performance. The OAB, through its Licensure Program, is responsible for the administration of the Uniform CPA Examination to Oklahoma candidates; certifies, licenses, and renews the licenses of individual CPAs and PAs, as well as registers CPA and PA firms. The OAB also administers a Peer Review program which requires firms and sole practitioners who perform audit or review services to undergo a peer review. The Board has developed this program as an enhancement of the Board’s mission to protect the public.

The Board serves as a critical educational tool for the public and the profession. The Board’s website includes information for the public, regarding their current status with Board as well as other important issues. The Board intends to extensively enhance the services and information available on the Board’s website. The Board also plans to significantly expand its outreach program, presenting informative programs throughout the state including presentations made to public forums, civic clubs, and educational institutions. These presentations are intended to educate the public about how to verify that the individual they are considering engaging to perform accounting services is qualified to do so as well as to advise the public regarding information and services available to them on the Board’s website.
Mission Driven Goals

All goals support the mission and vision of the OAB. Goals are numbered for reference. However, the Key Performance Measures (KPM), listed under each goal are prioritized by number. The OAB will use performance measures, where applicable, to track progress in achieving its goals and Key Performance Measures, and to identify areas for improvement. Performance measures will reflect the consumer protection mission of the OAB and provide a common focus for achievement.

In an environment of limited fiscal resources, the OAB articulates the following goals:

GOAL 1 ENFORCEMENT
Pursue an active, fair, effective, timely and efficient Enforcement Program.

GOAL 2 CUSTOMER SERVICE
Focus resources to deliver the highest standards of public protection and customer service.

GOAL 3 OUTREACH
Provide effective and timely outreach to all OAB stakeholders to achieve enhanced understanding between the OAB, the regulated community, and the public through effective communications, interactions, and service.

GOAL 4 ORGANIZATIONAL STRUCTURE
Develop an organizational structure that delivers responsive, effective, efficient, and innovative services.

GOAL 5 TECHNOLOGY
Improve efficiency, information security, and cost-effectiveness through the use of existing and emerging technologies and information services.
