

## 2007 OBN Registration Information

Registration renewal applications were mailed out on August 21, 2007. If your registration is due to expire on October 31, 2007 and you have not yet received your renewal application, you should contact the OBNDD Registration office to request that another application be mailed to you. Please do not print and use the registration application online to renew your registration, as that application is for NEW registrants only at this time.

Please note that all of the newly renewed registration certificates are mailed out in one bulk mailing around the second week of October. Therefore, even if you have already submitted your completed renewal application, you should not expect to receive your newly renewed certificate until around October 12, 2007.

You may verify that your renewal application has been received and processed by following the link on the main menu titled ONLINE REGISTRATION SEARCH. Once you have clicked that option, enter your name or registration number and when your record comes up, click on your registration number to open the record. If the expiration date has changed to the new one, then we have received and processed your renewal and you can expect to receive your new certificate around the second week of October.

Please keep in mind that all renewals received more than 60 days late will be charged a late penalty of double the renewal fee.

If you have any questions regarding the renewal of your registration, please contact the Registration Office at 405-530-3131/800-522-8031
