

**TITLE 475. OKLAHOMA STATE BUREAU OF NARCOTICS AND DANGEROUS
DRUGS CONTROL
CHAPTER 55. PSEUDOEPHEDRINE CONTROL**

475:55-1-2. Characteristics of exempt pseudoephedrine products [REVOKED]

(a) All products that are either: (1) soft gelatin liquid-filled capsules; or, (2) liquid preparations; are exempt from Schedule V. Conversely, all solid dosage forms of medications, including powders, that contain any quantity of pseudoephedrine are classified as Schedule V controlled dangerous substances and are subject to the rules of this section.

(b) The term “gel capsule,” as specified in O.S. Title 63, means any soft gelatin liquid-filled capsule that contains a liquid suspension, which, in the case of pseudoephedrine, is suspended in a matrix of glycerin, polyethylene glycol, and propylene glycol, along with other liquid substances. Regardless of the product manufacturers’ labeling, a gelatin-covered solid does not constitute a “gel capsule” under this provision.

(c) The term “active ingredient,” as specified in O.S. Title 63, shall include the matrix of glycerin, polyethylene glycol, and propylene glycol that is found in liquid capsules.

(d) Nothing in this section shall exempt from Schedule V status any liquid preparation that is found in an illegal laboratory, is associated with an illegal laboratory, or is in any form other than that manufactured and sold by a registered manufacturer for medicinal purposes.

475:55-1-5. Electronic Reporting [AMENDED]

Pharmacists or other authorized persons who sell Schedule V pseudoephedrine products shall exercise reasonable care in assuring that the purchaser has not exceeded the ~~nine (9) three and six-tenths (3.6) gram limit per day, the seven and two tenths (7.2) gram limit for a thirty (30) day period or the sixty (60) gram limit for a twelve (12) month period.~~ The pharmacist or other authorized person must utilize the real-time electronic pseudoephedrine tracking system as set forth pursuant to 63 O.S. §2-341 and the Methamphetamine Registry as set forth pursuant to 63 O.S. §2-701, ~~which are established and maintained by the Oklahoma Bureau of Narcotics and Dangerous Drugs Control.~~ The following provisions are necessary for compliance with this system:

~~(4) If the electronic log is unavailable (time-out of thirty (30) seconds or more) because of a failure on the Oklahoma Bureau of Narcotics and Dangerous Drugs Control network, the pharmacist or other authorized person may continue with the transactions until the system is available; if the electronic log is unavailable because of a failure attributable to systems other than the Oklahoma Bureau of Narcotics and Dangerous Drugs Control, all transactions must be recorded manually and entered into the electronic logbook by the registrant as soon as is practicable after the problem is resolved.~~

(5)(4) If at any time a pharmacist or other authorized person discovers that the electronic log is unavailable or that the information submitted to the electronic log is inaccurate, the authorized person may continue regulated transactions for twenty-four (24) hours, provided that all sales are manually recorded. The authorized person shall suspend all sales if the reporting problem is not corrected within twenty-four (24) hours of discovery.
