May 4, 2011

Dear Oklahoma Citizens;

We, at the Oklahoma Bureau of Narcotics, recognize that some of our fellow Oklahomans have a need to possess and use pharmaceutical controlled substances for legitimate medical reasons and if used properly, can provide an enhanced quality of life. However, we are aware that one of the sources for pharmaceutical diversion is the home medicine cabinet, which can be easily accessed by family members, friends, and invited guests.

We believe that a solution to this type of diversion is to lock up medications in every residence in Oklahoma and it is our sincere desire and goal to provide a locked drug safe to those individuals on fixed incomes, who cannot afford to purchase one.

If you, or your business, wishes to contribute to such a worthy project and help promote a drug safe environment, please send your contributions to the Oklahoma Bureau of Narcotics; Attention Agent-in-Charge (AIC) Larry Carter, at 440 N.E. 39<sup>th</sup> Street, Oklahoma City, Oklahoma 73105-7200.

I give you my genuine thanks for your participation in making the homes of Oklahoma a safer place in our great State.

Sincerely,

  
R. Darrell Weaver  
Director
