

**Certification Examinations for Oklahoma Educators (CEOE)
Framework Development Correlation Table**

The Framework Development Correlation Table provides information about possible alignment of some of the knowledge and skills contained within the CEOE framework for a test field with other conceptualizations of the knowledge and skills of a field. It was produced using Oklahoma and educator association standards documents that were publicly available at the time of framework development. In the preparation of the Correlation Table, the alignment of a CEOE test competency with standards documents was indicated if the content of a standard was covered, in whole or in part, by the CEOE test competency. For some CEOE test competencies, multiple standards from Oklahoma, or other documents were aligned with the content of a CEOE test competency. An indication of alignment in the Correlation Table does not necessarily imply complete congruence of the content of a CEOE test competency with the standard.

Matrix Showing Match between NCATE Curriculum Guidelines for Special Education Teachers of Students with Visual Impairments and CEOE Competencies

NCATE Curriculum Guidelines	CEOE Competencies
VI: Visual Impairment	
1. Philosophical, Historical, and Legal Foundations of Special Education	
<i>Knowledge:</i>	
K1 Federal entitlements (e.g., American Printing House for the Blind Quota Funds) that relate to the provision of specialized equipment and materials for learners with visual impairments.	0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.
K2 Historical foundations for education of children with visual impairments, including the array of service options.	0022 Understand how to encourage school-community interactions that enhance learning opportunities for students with visual impairments.
K3 Current educational definitions of students with visual disabilities, including identification criteria, labeling issues, and current incidence and prevalence figures.	0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.
<i>Skills:</i>	
S1 Articulate the pros and cons of current issues and trends in special education visual impairment.	0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in

NCATE Curriculum Guidelines		CEOE Competencies	
		Oklahoma.	
VI: Visual Impairment			
2. Characteristics of Learners			
<i>Knowledge:</i>			
K1	Normal development of the human visual system.	0002	Understand the human visual system and types and characteristics of visual impairments.
K2	Basic terminology related to the structure and function of the human visual system.	0002	Understand the human visual system and types and characteristics of visual impairments.
K3	Basic terminology related to diseases and disorders of the human visual system.	0002	Understand the human visual system and types and characteristics of visual impairments.
K4	Development of secondary senses (hearing, touch, taste, smell) when the primary sense is impaired.	0013	Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.
K5	The effects of a visual impairment on early development (motor system cognition, social/emotional interactions, self-help, language).	0001	Understand processes of human development and learning and the significance of visual impairments for development and learning.
		0003	Understand the implications of visual impairments for cognitive and communicative functioning.
		0004	Understand the implications of visual impairments for social/emotional and physical/motor functioning and for functional living competence.
K6	The effects of a visual impairment on social behaviors and independence.	0004	Understand the implications of visual impairments for social/emotional and physical/motor functioning and for functional living competence.
K7	The effects of a visual impairment on language and communication.	0003	Understand the implications of visual impairments for cognitive and communicative functioning.

NCATE Curriculum Guidelines		CEOE Competencies	
K8	The effects of a visual impairment on the individual's family and the reciprocal impact on the individual's self-esteem.	0021	Understand how to foster strong school-home relationships.
K9	Psychosocial aspects of a visual impairment.	0004	Understand the implications of visual impairments for social/emotional and physical/motor functioning and for functional living competence.
		0018	Understand how to foster the social and emotional development of students with visual impairments.
K10	Effects of medications on the visual system.	0001	Understand processes of human development and learning and the significance of visual impairments for development and learning.
K11	The impact of additional exceptionalities on students with visual impairments.	0001	Understand processes of human development and learning and the significance of visual impairments for development and learning.
<i>Skills:</i> None in addition to Common Core.			
VI: Visual Impairment			
3. Assessment, Diagnosis, and Evaluation			
<i>Knowledge:</i>			
K1	The impact of visual disorders on learning and experience.	0001	Understand processes of human development and learning and the significance of visual impairments for development and learning.
		0003	Understand the implications of visual impairments for cognitive and communicative functioning.
		0004	Understand the implications of visual impairments for social/emotional and physical/motor functioning and for functional living competence.
K2	Specialized terminology used in assessing individuals with visual	0006	Understand types and characteristics of assessment instruments and methods.

NCATE Curriculum Guidelines	CEOE Competencies
<p>impairments, both as it relates to the visual system and in areas of importance.</p>	<p>0007 Understand functional vision and learning media assessments for students with visual impairments.</p> <p>0008 Apply procedures for assessing the intellectual performance and academic achievement of students with visual impairments.</p> <p>0009 Apply procedures for assessing the motor functioning, communicative competence, and functional living skills of students with visual impairments.</p> <p>0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.</p>
<p>K3 Ethical considerations and legal provisions, regulations, and guidelines (federal, state/provincial, and local) related to assessment of students with visual impairments (including the legal versus functional definitions of blindness and low vision).</p>	<p>0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.</p>
<p>K4 Specialized policies regarding referral and placement procedures for students with visual impairments.</p>	<p>0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.</p> <p>0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.</p>
<p>K5 Procedures used for screening, prereferral, referral, and classifications of students with visual impairments, including vision screening methods, functional vision evaluation, and learning media assessment.</p>	<p>0007 Understand functional vision and learning media assessments for students with visual impairments.</p> <p>0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.</p>

NCATE Curriculum Guidelines	CEOE Competencies
	0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.
K6 Alternative assessment techniques for students who are blind or who have low vision.	0006 Understand types and characteristics of assessment instruments and methods. 0008 Apply procedures for assessing the intellectual performance and academic achievement of students with visual impairments. 0009 Apply procedures for assessing the motor functioning, communicative competence, and functional living skills of students with visual impairments. 0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.
K7 Appropriate interpretation and application of scores obtained as a result of assessing individuals with visual impairments.	0006 Understand types and characteristics of assessment instruments and methods. 0007 Understand functional vision and learning media assessments for students with visual impairments. 0008 Apply procedures for assessing the intellectual performance and academic achievement of students with visual impairments. 0009 Apply procedures for assessing the motor functioning, communicative competence, and functional living skills of students with visual impairments.
K8 Relationships among assessment, IEP development, and placement as they affect vision-related services.	0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.

NCATE Curriculum Guidelines		CEOE Competencies	
<i>Skills:</i>			
S1	Interpret eye reports and other vision-related diagnostic information.	0007	Understand functional vision and learning media assessments for students with visual impairments.
S2	Use disability-specific assessment instruments appropriately (e.g., Blind Learning Aptitude Test, Tactile Test of Basic Concepts, Diagnostic Assessment Procedure).	0007	Understand functional vision and learning media assessments for students with visual impairments.
		0009	Apply procedures for assessing the motor functioning, communicative competence, and functional living skills of students with visual impairments.
		0010	Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.
S3	Adapt and use a variety of assessment procedures appropriately when evaluating individuals with visual impairments.	0006	Understand types and characteristics of assessment instruments and methods.
		0007	Understand functional vision and learning media assessments for students with visual impairments.
		0008	Apply procedures for assessing the intellectual performance and academic achievement of students with visual impairments.
		0009	Apply procedures for assessing the motor functioning, communicative competence, and functional living skills of students with visual impairments.
		0010	Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.
S4	Create and maintain disability-related records for students with visual impairments.	0010	Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.

NCATE Curriculum Guidelines	CEOE Competencies
	0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.
S5 Gather background information about academic, medical, and family history as it relates to the student's visual status for students with visual impairments.	0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments. 0021 Understand how to foster strong school-home relationships.
S6 Develop individualized instructional strategies to enhance instruction for learners with visual impairments, including modifications of the environment, adaptations of materials, and disability-specific methodologies.	0005 Understand principles of optics, the use of low vision aids, and environmental adaptations that may enhance the use of vision. 0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments. 0011 Understand how to establish a positive and productive learning environment for all students. 0017 Understand how to foster students' academic achievement.
VI: Visual Impairment 4. Instructional Content and Practice	
<i>Knowledge:</i>	
K1 Methods for the development of special auditory, tactual, and modified visual communication skills for students with visual impairments, including:	0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment. 0014 Understand strategies for fostering students' communication and literacy skills.
K1.1 Braille reading and writing.	0014 Understand strategies for fostering students' communication and literacy

NCATE Curriculum Guidelines	CEOE Competencies
	<p>skills.</p> <p>0015 Demonstrate knowledge of grade 2 (literary) braille and Nemeth code for mathematics.</p>
K1.2 Handwriting for students with low vision and signature writing for students who are blind.	0014 Understand strategies for fostering students' communication and literacy skills.
K1.3 Listening skills and compensatory auditory skills.	<p>0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.</p> <p>0014 Understand strategies for fostering students' communication and literacy skills.</p>
K1.4 Typing and keyboarding skills.	0014 Understand strategies for fostering students' communication and literacy skills.
K1.5 The use of unique technology for individuals with visual impairments.	<p>0005 Understand principles of optics, the use of low vision aids, and environmental adaptations that may enhance the use of vision.</p> <p>0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.</p> <p>0014 Understand strategies for fostering students' communication and literacy skills.</p> <p>0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.</p>
K1.6 The use of alternatives to nonverbal communication.	0014 Understand strategies for fostering students' communication and literacy skills.
K2 Methods to acquire disability-unique academic skills, including:	0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.

NCATE Curriculum Guidelines	CEOE Competencies
K2.1 The use of an abacus.	0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.
K2.2 The use of a talking calculator.	0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.
K2.3 Tactile graphics (including maps, charts, tables, etc.).	0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.
K2.4 Adapted science equipment.	0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.
K3 Methods for the development of basic concepts needed by young students who do not learn visually.	<p>0003 Understand the implications of visual impairments for cognitive and communicative functioning.</p> <p>0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.</p> <p>0014 Understand strategies for fostering students' communication and literacy skills.</p> <p>0016 Understand strategies for developing the functional living skills of students with visual and multiple impairments.</p> <p>0017 Understand how to foster students' academic achievement.</p>
K4 Methods for the development of visual efficiency, including instruction in the use of print adaptations, optical devices, and nonoptical devices.	<p>0003 Understand the implications of visual impairments for cognitive and communicative functioning.</p> <p>0005 Understand principles of optics, the use of low vision aids, and environmental adaptations that may enhance the use of vision.</p> <p>0014 Understand strategies for fostering students' communication and literacy skills.</p>

NCATE Curriculum Guidelines		CEOE Competencies	
K5	Methods to develop alternative reasoning and decision-making skills in students with visual impairments.	0017	Understand how to foster students' academic achievement.
K6	Methods to develop alternative organization and study skills for students with visual impairments.	0017	Understand how to foster students' academic achievement.
K7	Methods to prepare students with visual impairments for structured precane orientation and mobility assessment and instruction.	0012	Understand concepts and skills related to orientation and mobility and methods of preparing students for structured orientation and mobility instruction.
K8	Methods to develop tactual perceptual skills for students who are or will be primarily tactual learners.	0013	Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.
K9	Methods to teach human sexuality to students with visual impairments, using tactual models that are anatomically accurate.	0018	Understand how to foster the social and emotional development of students with visual impairments.
K10	Methods to develop adapted physical and recreation skills for individuals with visual impairments.	0019	Understand how to foster the social and emotional development of students with visual impairments.
		0020	Understand how to establish partnerships with other members of the school community to enhance learning opportunities for students with visual impairments.
K11	Methods to develop social and daily living skills that are normally learned or reinforced by visual means.	0016	Understand strategies for developing the functional living skills of students with visual and multiple impairments.
		0018	Understand how to foster the social and emotional development of students with visual impairments.
		0019	Understand how to foster the social and emotional development of students with visual impairments.
K12	Strategies for developing career awareness in and providing vocational	0019	Understand how to foster the social and emotional development of students

	visual impairments.
<p>K16 Techniques for modifying instructional methods and materials for students with visual impairments, and assisting classroom teachers in implementing these modifications.</p>	<p>0011 Understand how to establish a positive and productive learning environment for all students.</p> <p>0017 Understand how to foster students' academic achievement.</p> <p>0020 Understand how to establish partnerships with other members of the school community to enhance learning opportunities for students with visual impairments.</p>
Skills:	
<p>S1 Interpret and use unique assessment data for instructional planning with student with visual impairments.</p>	<p>0007 Understand functional vision and learning media assessments for students with visual impairments.</p> <p>0008 Apply procedures for assessing the intellectual performance and academic achievement of students with visual impairments.</p> <p>0009 Apply procedures for assessing the motor functioning, communicative competence, and functional living skills of students with visual impairments.</p> <p>0010 Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.</p>
<p>S2 Choose and use appropriate technologies to accomplish instructional objectives for students with visual impairments, and integrate the technologies appropriately into the instructional process.</p>	<p>0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.</p> <p>0014 Understand strategies for fostering students' communication and literacy skills.</p> <p>0017 Understand how to foster students' academic achievement.</p>

NCATE Curriculum Guidelines		CEOE Competencies	
S3	Sequence, implement, and evaluate individual disability-related learning objectives for students with visual impairments.	0010	Understand procedures for developing and implementing an Individualized Education Program (IEP) for students with visual impairments.
S4	Use strategies for facilitating the maintenance and generalization of disability-related skills across learning environments for students with visual impairments.	0016	Understand strategies for developing the functional living skills of students with visual and multiple impairments.
		0017	Understand how to foster students' academic achievement.
		0018	Understand how to foster the social and emotional development of students with visual impairments.
		0019	Understand how to foster the social and emotional development of students with visual impairments.
S5	Teach students who have visual impairments to use thinking, problem-solving, and other cognitive strategies to meet their individual learning needs.	0017	Understand how to foster students' academic achievement.
		0019	Understand how to foster the social and emotional development of students with visual impairments.
VI: Visual Impairment			
5. Planning and Managing the Teaching and Learning Environment			
<i>Knowledge:</i>			
K1	A variety of input and output enhancements to computer technology that address the specific access needs of students with visual impairments in a variety of environments.	0013	Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment.
		0014	Understand strategies for fostering students' communication and literacy skills.
		0017	Understand how to foster students' academic achievement.
		0018	Understand how to foster the social and emotional development of students with visual impairments.

NCATE Curriculum Guidelines	CEOE Competencies
	0019 Understand how to foster the social and emotional development of students with visual impairments.
K2 Model programs, including career-vocational and transition, that have been effective for students with visual impairments.	0019 Understand how to foster the social and emotional development of students with visual impairments. 0023 Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.
Skills:	
S1 Prepare modified special materials (e.g., in Braille, enlarged, outlined, highlighted) for students who have visual impairments.	0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment. 0017 Understand how to foster students' academic achievement.
S2 Obtain and organize special materials to implement instructional goals for learners with visual impairments.	0013 Understand techniques for helping students make efficient and effective use of all their senses to interpret information from their environment. 0014 Understand strategies for fostering students' communication and literacy skills. 0017 Understand how to foster students' academic achievement.
S3 Design learning environments that are multisensory and that encourage active participation by learners with visual impairments in a variety of group and individual learning activities.	0011 Understand how to establish a positive and productive learning environment for all students.
S4 Create a learning environment that encourages self-advocacy and independence for students with visual impairments.	0019 Understand how to foster the social and emotional development of students with visual impairments.

NCATE Curriculum Guidelines		CEOE Competencies	
S5	Transcribe, proofread, and interline Grade II Braille and Nemeth code Braille materials.	0015	Demonstrate knowledge of grade 2 (literary) braille and Nemeth code for mathematics.
S6	Use Braillewriter, slate and stylus, and computer technology to produce Braille materials.	0015	Demonstrate knowledge of grade 2 (literary) braille and Nemeth code for mathematics.
VI: Visual Impairment			
6. Managing Student Behavior and Social Interaction Skills			
<i>Knowledge:</i>			
K1	Teacher attitudes and behaviors that affect the behaviors of students with visual impairments.	0011	Understand how to establish a positive and productive learning environment for all students.
		0023	Understand the history and philosophy of special education, key issues and trends, professional roles and responsibilities, and legal and ethical issues relevant to special education in Oklahoma.
<i>Skills:</i>			
S1	Prepare students with progressive eye conditions to achieve a positive transition to alternative skills.	0018	Understand how to foster the social and emotional development of students with visual impairments.
		0019	Understand how to foster the social and emotional development of students with visual impairments.
S2	Prepare students who have visual impairments to access information and services from the community at large.	0019	Understand how to foster the social and emotional development of students with visual impairments.
		0022	Understand how to encourage school-community interactions that enhance learning opportunities for students with visual impairments.
S3	Prepare students who have visual impairments to respond to societal attitudes and actions with positive behavior, self-advocacy, and a sense of	0019	Understand how to foster the social and emotional development of students with visual impairments.
