

Correct Administration And Application of the Addiction Severity Index (ASI)

2401 NW 23rd Street, Oklahoma City, OK 73107 (405) 522-8300

Correct Administration and Application of the Addiction Severity Index (ASI)

Purpose

This competency based workshop will consist of the 2-day ASI workshop. The 2-day training will provide workers with the knowledge, skills, and support materials required to administer the ASI correctly in their clinical settings. It is highly recommended that all participants observe a minimum of two ASI interviews prior to the 2-day training. The class will also include homework on the first evening of class.

The ASI is a structured clinical interview that has clinical, program evaluation, and research applications. It has been used for evaluating a client's need for treatment. The instrument has been very helpful in standardizing the assessment process and has been used for treatment planning, outcome studies, and overall program evaluation. The goal of the training is to develop and/or enhance interviewer competencies in correctly administering and utilizing the ASI instrument. While the Addiction Severity Index (ASI) is one of the most widely used assessment instruments in the substance abuse field, it is also widely misused and misunderstood. An exam will be given at the end of the training; in order for participants to administer the ASI, they must pass the exam.

Objectives

Upon completion, participants involved in the ASI training will be able to:

1. Identify and describe the specific intention of each question asked in the ASI;
2. Phrase each question in the most efficient way while remaining flexible enough to adapt the instrument to make it more gender, culture, and population sensitive;
3. Verify patient/client self-report through the use of cross checking;
4. Explain the importance of using additional probes (questions) to augment information provided by the client;
5. Consistently apply the correct numerical codes in response to client answers; and
6. Utilize the severity rating procedure.

Facilitators

The trainer for Oklahoma City is James Patterson, ICADC and the trainer for Tulsa is Steve Stewart, LPC, LADC, SAP.
