Curricula shall include attention to building decision making capacity and life skills to implement decisions regarding substance use, including nicotine and caffeine, to promote health choices. (D) The program is organized into one or more work units, each of which has sufficient staff, members and meaningful work.

(e) PSR programs are required to maintain minimum staff ratios to assure participants have choices in activities and staff with whom they work. The following staffing ratios shall be maintained for each location at which a psychiatric rehabilitation program is in operation.

(1) Fourteen (14) or fewer participants in attendance; at least one staff member present provided arrangements for emergency back-up staff coverage are in place and described in the program's policy and procedures;
