

Youth Empowerment and Healthy Youth Development Seminar

Date: March 19, 2010

Time: 8AM-5PM

Register ASAP

The key principle embedded within the philosophy of *youth guided* is that young people of America regardless of race, ethnicity, color, socioeconomic status or cultural background have the right to be empowered, **educated**, and given a decision making role in making their communities a safe place for all to live.

The ODMHSAS Systems of Care is providing Part 2 of the Youth Empowerment and Healthy Youth Development training series. Mr. Kevi White from VIP Community Services Inc. will be providing a youth empowerment training seminar to 25 SOC Youth and Youth Coordinators from across the state. VIP Community Services, Inc. believes that communities should expect more from young people and provide them with opportunities to give more and become more. VIP Community Services, Inc is committed to designing training programs in an effort to continuously "*Build a Brighter Future Today*" for youth across the nation. VIP Community Services Inc, Youth Guided in Leadership uses a "*Positive Youth Development Approach*" along with creative training techniques, group interaction, lecture, video presentations and incentive-based modeling to provide participants with the necessary skills to become effective leaders and operate successfully in cross-cultural settings.

Training Location:
**Oklahoma Regional
Training Institute
6500 N. Kelly Ave.
Oklahoma City, OK**
