

PROBLEM GAMBLING CORE LEVEL TRAINING

30-Hour Course for the Treatment of Problem Gambling

Part 1 April 18-19, 2013

Part 2 May 9-10, 2013

Problem Gambling Core Level Training

Tulsa, Oklahoma
April 18-19, 2013
and
May 9-10, 2013

Purpose

Problem and Pathological gambling is a progressive behavior disorder in which a person has a psychological uncontrollable preoccupation and urge to gamble. This results in excessive gambling, the outcome of which is the loss of time, money, families, careers, and lives. The gambling ultimately reaches the point where it disrupts and destroys the gambler's personal life, family relationships, or vocational pursuits. Therefore, Oklahoma Department of Mental Health and Substance Abuse Services (ODMHSAS) is offering gambling counselor training to assist counselors in providing problem gambling treatment services to adolescents, adults, families and significant others with gambling-related disorders and problems.

This 30-hour core level training will assist counselors in meeting a portion of the ODMHSAS gambling treatment professional requirements and a portion of the National Gambling Counselor Certification. For additional information on National Certification, go to www.ncpgambling.org ODMHSAS program standards require that any program providing gambling treatment be certified and have gambling treatment professionals that hold a current license as a behavioral health counselor or certification as an alcohol and drug counselor or be under supervision for a license as a behavioral health counselor. In addition, the gambling treatment professional should have:

- 1) Documented completion of 30 hours of ODMHSAS recognized core gambling training requirements and
- 2) Documented completion of 12 hours of gambling specific continuing education hours every 12 months.

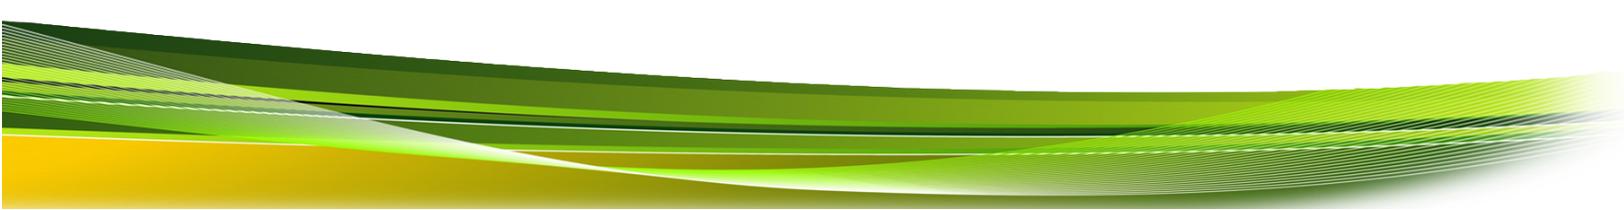

If you would like more information on provider certification click [here](#). Additional information for certification requirements can be found in [Title 43A](#). The ODMHSAS Standards and Criteria for Gambling Treatment Programs can be found [here](#).

This 15-hour generalist training will assist individuals with symptom identification, community resources, linkage, and referrals to gambling treatment services which is only offered on April 18-19, 2013.

Prerequisite

Effective in 2010, all individuals seeking certification must complete the program in sequence and meet one of the following criteria.

- **Attendees must meet at minimum one of the following criteria to provide gambling treatment services:** Be a licensed or certified alcohol and drug counselor, a licensed clinician in a behavioral health related field, or under supervision for licensure in a behavioral health related field.
- **Attendees seeking to provide generalist services such as Case Management and/or Peer Recovery Support Services to those seeking gambling services must meet at minimum one of the following criteria:** Be a Certified Behavioral Health Case Manager or a Certified Peer Recovery Support Specialist.
