Stepping Stones to Recovery

A Training Curriculum for Case Managers Assisting Adults Who Are Homeless with Social Security Disability and Supplemental Security Income Applications
The Challenge

• Path to recovery is extraordinarily challenging when basic needs are unmet

• SSI/SSDI application and disability determination process can seem complex

• Disconnect between the experience of homelessness and the disability application process
A Different Approach

• SSI/SSDI – a tool in recovery
• Meeting basic needs – income, housing, and other services
• Case managers – agents of hope
• Values – choice and respect
• Active role in SSI/SSDI leads to more effective decisions and outcomes

Disability

Impairments must affect a person’s ability to work.

“inability to engage in any substantial gainful activity (SGA)…”
Criteria for Eligibility

1. Medically Determinable Physical or Mental Impairment

   Illness(es) must either meet or be equivalent to the “listing” criteria used by DDS. Supporting information must be documented in medical records.

2. Duration

   The impairment tied to the illness(es) must have lasted OR be expected to last 12 months or more OR result in death.

3. Functional Information

   Applicant must demonstrate that significant functional impairment related to the illness(es) exists.
Protective Filing Date - SSI

Establishing a date of first contact with Social Security

Determines when individual can start receiving benefits
Date of Onset - SSDI

- Date DDS uses to determine when disability began
- Particularly important for SSDI applications as it affects both income benefits and Medicare eligibility
- Date is critical for the determination of retroactive benefits as well
Non-Medical Information

- Earnings
- Personal Information
- Disability Information
- Immigration Status
- Legal
Medical Information

1. Individual files application
2. SSA determines non-medical eligibility
3. SSA sends medical information and releases to DDS, disability examiner is assigned
4. DDS processes claim and makes disability determination
5. Applicant’s folder is returned to initiating SSA office
6. SSA notifies applicant of decision by letter

SSA-3368 Disability Report
(can be completed online)

SSA-3369 Work History Report
(can be included in Medical Summary Report)

SSA-827 Authorization to Disclose Information to SSA
(one for each provider with medical information; use in conjunction with agency release form)
Disability Report: SSA-3368

- Disability Report allows DDS to obtain a complete picture of applicant’s medical history and treatment

- Completeness is critical

- Ensure that all known information is provided

- This form can be completed and submitted on-line – i3368
Medical Evidence to Be Provided

- All treatment sources, past and present, for physical and mental illnesses
- All vocational or rehabilitation programs that the applicant attended
- Remarks that enhance any relevant information
- Work history that is comprehensive and specific
- Information on past work demands and skills
- Functional information – Modules XI – XII
Possible Paths to Medical Evidence

- Applicant
- Friends/Family Members
- Service Providers
- Commonly Used Facilities
- State Mental Health Departments
- Internet
- Yellow Pages
Areas of Functional Information

I. Marked restrictions of activities of daily living

II. Marked difficulties in maintaining social functioning

III. Marked difficulties in maintaining concentration, persistence, and pace (as they relate to the ability to complete tasks)

IV. Repeated episodes of decompensation (each of extended duration)
Make the **link**

between the diagnosis or illness

and the functional impairment.
Handy Tips

• Disability reports should be completed in the first person in the applicant’s own words

• Be as complete as possible – add pages if necessary

• Include information about all health problems

• Contact the DDS examiner within 2 – 3 weeks of application; confirm contact info and willingness to help

• Make contact with the DDS professional/medical relations officer – plan strategies for collaboration
Further Difficulties

Inconsistent Treatment
Poor Records
Forgotten Treatment
Transient Treatment
Potential Roles:
Case Manager / Outreach Worker

**Contact Person**
- Central point of contact
- Helps complete SSI or SSDI application
- Helps SSA and DDS obtain information

**Representative**
- Provides same functions as “contact person” above
- Has legal authorization to act on behalf of applicant

**Representative Payee**
- Responsible for assistance with budgeting and managing SSI/SSDI benefits
- Usually at agency level, not individual case manager
Getting the History

• Goal – portray an individual’s history
• Focus on eliciting information, not completing application questions
• Ask yourself:
  – What information do I have?
  – Does it fit together to tell the whole story?
  – What am I missing?
• Listen to the person’s story of his/her life
Environment

- Set the person at ease
- Create a safe, comfortable environment
- Show respect – for person and privacy
- Demonstrate trustworthiness
- Check with person about their comfort talking in a particular place
- Respect discomfort talking about certain issues – don’t label as resistant or unmotivated
- Reassure that not providing info will not restrict service
• Avoid questions on assessment forms that lead to yes / no answers
• Use sensitivity – “physical abuse” or “substance abuse”
• Avoid jargon
• Ask open-ended questions
Process

• Not a one-time meeting
• An ongoing process
• Continual attention to the person and information offered – verbally and nonverbally – makes assessment richer and more accurate
• Strengths and struggles of the person
Care-characteristics That Develop Trust

Compassion
Assurance
Respect
Empathy
Summary

• When you apply, be sure to apply for both SSI and SSDI

• Be Patient while waiting on the determination, your application could take a few months to review.
