The Oklahoma National Guard Counterdrug Task Force Mission

To support the detection, interdiction, disruption, and curtailment of drug trafficking activities and use through the application of military-unique skills and resources in concert with interagency efforts to reduce the threat posed by drug-related Transnational Criminal Organizations (TCO) to the State of Oklahoma and the United States of America.

Civil Operations Mission

To develop a consolidated plan for targeting substance use/abuse by partnering with local prevention agencies that seek to improve the health and well-being of Oklahoma communities. OKCDTF will provide technical assistance and training to create a strong response to substance use/abuse within Oklahoma, ensuring long-term positive behavior outcomes through statewide anti-drug prevention efforts.

National Mission and Vision

NGB

Mission:

Support the detection, interdiction, disruption, and curtailment of drug trafficking activities and use through the application of military-unique skills and resources.

Information Sharing

LOE #1: Analyst-Based Support

- Criminal Analyst embeds
- Counter Threat Finance (CTF)
- Post Seizure Analysis

LOE #2: Supply Interdiction Support

- Reconnaissance & Surveillance
- Targeting

LOE #3: Building Partner Capacity

- CD SME assistance to State Partnership
- Training Center & SAFTA Partnership
- Leverage Civil Ops Coalition Support

Partnerships

Information Sharing

Partnerships

NGB Vision:

Reduce drug-related threats to national security through military support to the Combatant Commands and our interagency, Federal, state, and local law enforcement and community partners.

2018 National Drug Control Strategy

1. Opioid Epidemic and Response
2. Prevention: Supporting Youth, Families, and Communities
3. Improving Treatment Access and Outcomes
4. Sustaining and Supporting Recovery
5. Leveraging Law Enforcement and the Justice System to Reduce Drug Use and Promote Recovery
6. Support Law Enforcement Efforts to Reduce Availability of Dangerous Drugs
7. Disrupt and Dismantle Transnational Drug Trafficking Organizations through Interdiction and Enforcement
8. Work with International Partners on Shared Drug Threats
9. Enforce Federal Law to Attack Illicit Financial Activities
10. Speeding Up and Improving U.S. Drug Data Systems

OKCTFD Strategic Goals

- Goal 1 – Combat the smuggling of illicit drugs and monies into the State of Oklahoma through analytical support provided by Criminal and Counter Threat Finance Analysts.
- Goal 2 – Disrupt the production, distribution and transportation of illicit drugs through the use of observation and reconnaissance assets.
- Goal 3 – Continue to establish a method for mass data input from all Oklahoma LEA's in conjunction with OHP, using the MicroStrategy software platform. This will allow OKCD to be able to drill down even further into the stats, giving Oklahoma the ability to identify drug patterns by location, drug type, type of vehicle, and paths traveled to accurately identify the Oklahoma drug threat.
- Goal 4 – The OKCDTF Civil Operations Team support coalitions by providing leadership in substance abuse prevention, intervention, Kaizen Survey and treatment, while further assisting the development of Oklahoma's community based coalitions to reduce the awareness of the illegal use of drugs, and promote the health and safety of Oklahoma's citizens.

Current Status of National Civil Operations

- Primary Goal: Reduce Demand/Build Partner Capacity
- National Guard Counterdrug is uniquely postured to link Community Based Organizations (CBOs)/Coalitions with other government and non-government entities to expand effort and enhance results
- Civil Operations Coalition Development exemplifies grass root processes that directly impact communities
 - SAMHSA Strategic Prevention Framework
 - Assess needs, Build Capacity, Plan, Implement, Evaluate
- 25 CDPs currently support over 400 anti-drug coalitions with over 120 National Guard service members
 - Commercial and local business techniques and practices
 - Stakeholder information sharing
 - Community survey

Civil Operations Mission in the Community

Vision:

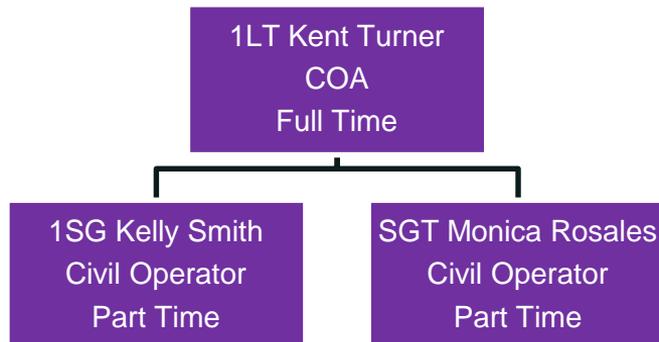

The vision of the National Guard Civil Operations program is to coach communities in delivering collaborative and effective strategies that create healthy citizens

Mission:

Provide a well trained and adaptable force capable of developing coalitions while implementing effective prevention practices and maintaining flexibility to apply these skills to other missions

Process:

This mission is accomplished through a multi-faceted process using unique tools developed for the National Guard and training and experience of applying military process to a community setting.

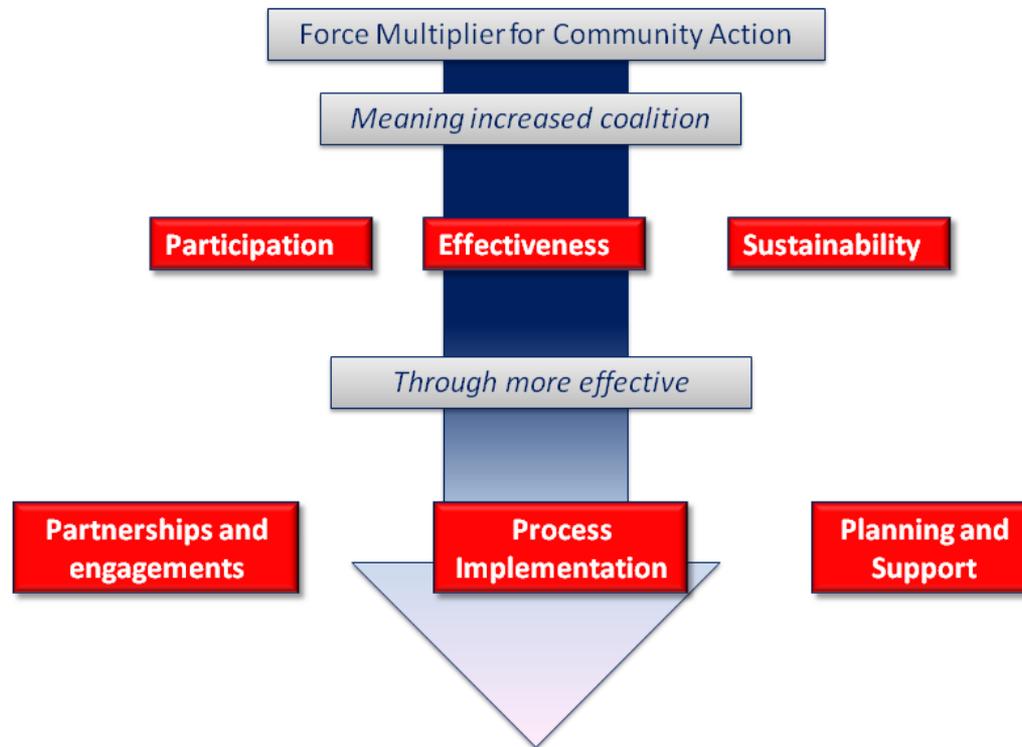

Mission 6C. Civil Ops Support:

Civil Operations personnel will use unique military skills and expertise to assist civil authorities to form and effectively lead community anti-drug CBOs. These CBOs will be enrolled or have the intention of enrolling in the Community Anti-Drug Coalitions of America (CADCA) National Coalition Registry. Assistance will help local leaders form alliances and partnerships, enhance collaboration at the grass roots level, and strengthen planning and implementation with the overall goal of creating drug-free communities. Using unique military expertise, Civil Operations personnel will assist CBOs to become more efficient, strategic, and successful. When a community has yet to form an organized CBO, Civil Operations personnel will work with federal, state, and local entities to help create partnerships consisting of community sectors for the purpose of establishing a community CBO. The CBO shall, to the extent possible, be comprised of sector representation as outlined in Section 1032 (2, A, B and C) of PL 105-20 of 1997 and amended in 2002 The Drug Free Communities Act. Support to CBOs, mission 6c, will include, but is not limited to: (a) Providing independent strategic leadership within a CBO to facilitate planning and development using military decision making methods to complement public health, prevention, and other models to create more effective partnerships. (b) Increase the capacity, sustainability, and effectiveness of CBOs and partnerships by taking an active role in CBO meetings, conferences, trainings, and events as a significant partner of the CBO (c) Provide support to CBOs. Support will include but is not limited to: operational, analytical, personnel, training, logistics and administrative duties.

Implementation

Partnerships and Engagements

- Provide a better understandings of why participation is important and provide tools to assist in building better participation
- Use the Kaizen Assessment Tool to demonstrate where participation is an issue and how it fits into the overall scheme.
- Provide a better understandings of how to build consensus and engagement among groups
- Leveraging existing partnerships toward community change

Process Implementation

- Provide a better view of where coalition truly is by members of the Coalition Kaizen Coaching process
- Provide a better understanding and significance of key processes
 - When able provide training and facilitation of 12 essential processes and how to integrate these processes into a coalitions current workflow
- Provide a better understanding of how to effectively implement processes through training and facilitation.

- Focus on the end state
 - What is the end goal of the coalition
 - How to incrementally get there through planning and capacity?
 - How to show accomplishments and document the steps taken to get there (evaluation)
 - How to ensure coalition will be around long enough to get there?
- Facilitate a better understanding of key products and their importance (what each document does, why it is effective and what is the minimum content)
- Provide better support in developing plans
 - Leverage partnerships to provide needed support
 - Develop robust library of tools to assist coalitions
- When able provide direct support
- Better accountability

COALITION KAIZEN COACHING PROCESS

- The Coalition Kaizen Coaching Process is the signature tool the National Guard Civil Operations uses to assist coalitions in becoming more effective in their work. This is a four step process using the National Guard Coalition Kaizen Assessment:
 1. OKCD administers the Kaizen Assessment to the entire coalition.
 2. OKCD facilitates a smaller group analysis of the results to find incremental areas for improvement and develop strategies for enhancement.
 3. OKCD takes the results of the analysis and researches different resources that can help the coalition improve the problem areas, this is compiled into the Coalition Coaching Report.
 4. OKCD reviews the Coalition Coaching Report with the entire coalition. As a group they develop a strategy and develop milestones for improvement and assign a responsible party to ensure completion.

COALITION KAIZEN COACHING PROCESS

- **What do the results look like?**

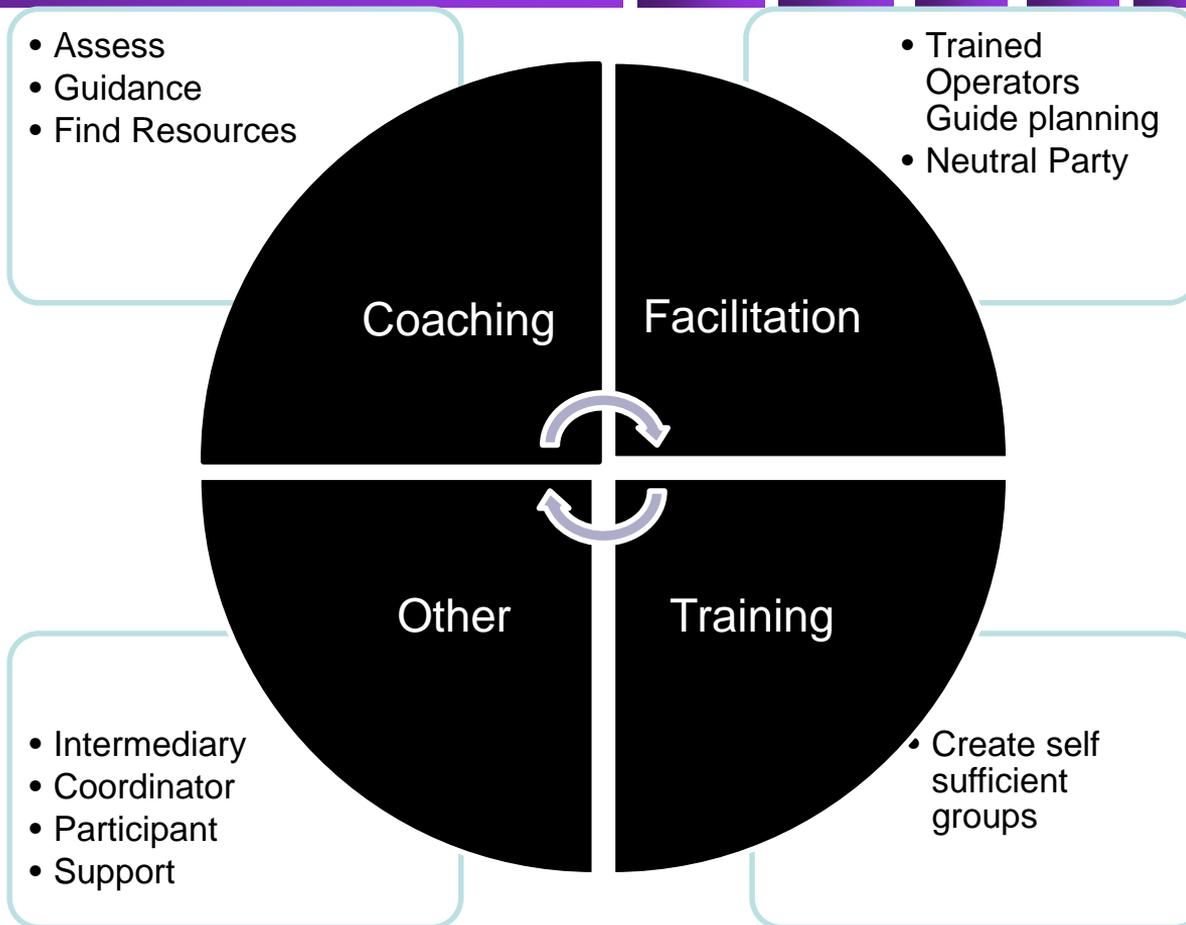

The Kaizen process produces a one-page diagnostic along with supporting reports that provide more detail and recommendations. The one page diagnostic highlights coalition strengths in green, caution areas in yellow, and weaknesses in red; this allows for easy interpretation of results. Coalitions can quickly celebrate strengths and make plans to improve weaknesses. The dashboard as shown along with the analytic report and then used by the coalition for analysis in the next steps of the Kaizen Coaching Process.

Coalition Process SPF Report

	Completed: Measures if the task has been completed by your coalition.	Participation: Measures the extent to which members were involved in the task.	Consensus: Measures how much members agree with the decisions made in this area.	Utility: Measures if the members have found the decisions or plans to be useful.

Types of Support

- Loyalty
- Duty
- Respect
- Selfless Service
- Honor
- Integrity
- Courage

If your
actions
inspire
others to
dream more,
learn more,
do more &
become more,
**YOU ARE A
LEADER.**

Historic Results

- Since the year 2000 the OKCD TF has provided support for:
 - Over 10,000 arrests
 - \$65,167,163.47 U.S. Currency seized
 - \$15,589,280 worth of property seized
 - 3,692 weapons seized
 - Drugs seized
 - 13,301.34 pounds of Cocaine - \$134,164,830.97
 - 53 pounds of Crack Cocaine \$646,714.22
 - 67,230.78 Ecstasy pills - \$944,392.28
 - 4,717.52 pounds of Heroin - \$14,039,168.82
 - 60,230,433 Marijuana plants
 - 1,117,398,13 pounds of processed Marijuana - \$1,094,340,044.07
 - 141,711.3904 pounds of Methamphetamines - \$71,347,696.10
- Total Value of drugs, proceeds and property - \$1,528,038,845.39**
- Cost of support to LEAs - \$0

Limitations:

- Manning- One full time Civil Operator can sufficiently support up to 15 coalitions. (Currently we have 0 full time Civil Operators, 1 part time)
- Experience- OK hasn't had Civ Ops as a LOE since 2014
- Distance- With limited personnel its very difficult to travel to cities outside OKC to provide needed support.
- Kaizen Tool- OK completed more Kaizen assessments first year then any other state. Have only been able to support 1 per FY since FY14 due to lack of funding for the overall state mission.
