Improved National Resource Directory Available for Wounded Warriors and Veterans

A resource link is provided on the AHRQ Web site to the National Resource Directory (NRD). This online tool for wounded, ill, and injured Service Members, Veterans, their families, and those who support them provides access to more than 10,000 services and resources at the national, State, and local levels for recovery, rehabilitation, and community reintegration.

NRD was recently re-designed based on feedback from users in the Wounded Warrior and Veteran communities. It offers an expanded Homeless Assistance section where users can find information on programs and benefits designed to help homeless Veterans live as independently as possible. This Web site is hosted by the Departments of Defense, Labor, and Veterans Affairs.

To explore and sign up for e-mail updates about new content, events, and features, go to:
