COSTELLO ISSUES FIRST SAFETY AWARD

Oklahoma City – Oklahoma Department of Labor Commissioner Mark Costello makes his first SHARP commendation to local business Arrow Wrecking Service.

Commissioner Costello is scheduled to honor Arrow Wrecking Service of Oklahoma City with its third SHARP certification in a presentation scheduled for Tuesday, January 25th at 11:00 am at the company's N. Villa location. He will recognize owners Al and Vanita Muzny for their continued commitment to safety and health in the workplace. Arrow Wrecking has also received numerous other awards including the American Towman Ace Award which puts them in the top 1% of towing operations for service reliability and professionalism.

The Safety & Health Achievement Recognition Program (SHARP) was designed by federal OSHA to encourage and recognize excellence in occupational safety and health. Arrow Wrecking Service has fulfilled the challenging SHARP requirements and deserves recognition by Commissioner Costello.

Commissioner Costello stated, "I am pleased that my first commendation will go to a business that has received this honor for the third time."
