WHAT: HAZCOM 2012 GHS Workshop -information and training on what the changes mean for you. How to properly train workers on the new labels and SDS format (by Dec. 1, 2013) and on any new hazards in the workplace that may result from the new classification system (by June 1, 2016).

WHEN: Thursday, October 4, 2012

Friday, October 5, 2012

1:00 pm - 4:00 pm

1:00 pm - 4:00 pm

Moore/Norman Technology Center

Tulsa Technology Center-Riverside Campus

13301 S. Penn, OKC, OK 73170

801 E. 91St. Tulsa, OK 74132

*This **FREE** workshop is intended for both chemical manufacturers/importers/formulators who will need to create the new SDSs and labels, but also for all Oklahoma employers who use chemicals.*

HAZCOM 2012 - OSHA'S NEW HAZARD COMMUNICATION STANDARD WITH GHS REQUIREMENTS

Are you familiar with the recent changes to the OSHA Hazard Communication Standard? The new standard is being referred to as Hazcom 2012 and includes changes that will align the OSHA standard with the Globally Harmonized System of Classification and Labeling of Chemicals (GHS).

This FREE workshop will cover:

- A detailed overview of the revised Hazard Communication Standard and what this means for your company or employer
- Compliance deadlines
- Changes to the Safety Data Sheet requirements and format
- New labeling requirements
- Training and written program requirements

One breakout session will be provided to assist chemical manufacturers/importers/formulators with the new requirements for labeling and Safety Data Sheets (replacing MSDSs). Another breakout session will be presented by OSHA/ODOL on how to update your HazCom written program and provide training on the new standard to your employees.

FEATURED SPEAKER

Denese A. Deeds, CIH - Co-founder of Industrial Health & Safety Consultants, Inc where she is the Director of Chemical Regulatory Services. In that function she prepares SDSs, labels and other hazard communication documents, files international chemical registrations and assists companies with overall chemical regulatory compliance. She has 39 years in the field and is a recognized expert in her field.
