Description of Amendment:

a. This is to incorporate the following:

The Amendment is being issued to provide Vendors with the Questions and Answers for this project.

If it says In-house install, that means we can ignore the install and any mounting such as nails and velcro?
Yes, you can ignore the install and mounting on these items, OHS will be completing the install on those items.

If it says hardware provided and In-house install, we can ignore the install and mounting columns?
No, on those items, the vendor would need to provide the threaded inserts with the 1/2" thick graphics and provide the corresponding screws that screw into the threaded inserts. OHS will install the graphics on site with the provided hardware.

For item C.4.1, it says "print in-house" so we don't need to quotes this one, but we do need to get the Wyman frame?
Wyman will provide the Frame for this item, OHS will print the graphics, so it will not need to be quoted.

For all Wyman frames, you are installing; so we do not need to quote any hardware?
Correct, No hardware will be necessary for the Wyman Frames.

For the canvas wall murals, Muralsyourway needs to know who specced this job; so they quote the correct product and adhesive?

We need a canvas wallpaper that can be printed with high resolution graphics which is an approved equal to the product listed in attachment 2, sheet G2. We will need to corresponding correct adhesive to attach the canvas wallpaper to painted drywall walls.

On the Fossil products; it says with threaded inserts but also says hardware provided, please clarify?

The Fossil products are to include threaded inserts in the back of the 1/2" thick graphic panels and also include the corresponding screws that will screw into those inserts.

b. All other terms and conditions remain unchanged.
