<b>Section III: QCEW Data 2005 by County.....</b>	<b>17</b>

# Introduction

## Description of Data

The Quarterly Census of Employment and Wages (QCEW) program produces a comprehensive tabulation of employment and wage information for workers covered by State unemployment insurance (UI) laws and Federal workers covered by the Unemployment Compensation for Federal Employees (UCFE) program. This publication contains average annual employment and payroll figures for the state and each county for the calendar year 2005. In addition, covered employment and average weekly earnings figures are included by major industry division for the state, every county in the state and the Oklahoma City, Tulsa, and Lawton Metropolitan Statistical Areas. The information contained in this handbook was tabulated from the quarterly contributions reports and Multiple Work-site Report supplements submitted by employers subject to the *Oklahoma Employment Security Act*.

## Establishments and Employment Size

An establishment is an economic unit, such as a farm, mine, factory, or store that produces goods or provides services. It is typically at a single physical location and engaged in one, or predominantly one, type of economic activity for which a single industrial classification may be applied. Occasionally, a single physical location encompasses two or more distinct and significant activities. Each activity is reported as a separate establishment, if separate records are kept, and the various activities are classified under different industries.

Data reported for the first quarter of 2005 were tabulated into size categories ranging from worksites with few employees, to those with 1,000 or more employees. The size category is determined by the establishment's March employment level. It is important to note that data for each establishment of a multi-establishment firm are tabulated separately into the appropriate size category. The total employment level of the reporting multi-establishment firm is not used in the size tabulation.

## Covered Employment

Employment data under the QCEW program represent the number of covered workers who worked during, or received pay for, the pay period including the 12th of the month. Excluded are members of the armed forces, the self-employed, proprietors, domestic workers, unpaid family workers, and railroad workers covered by the railroad unemployment insurance system.

## Average Annual Employment

The average annual employment figures shown for each year in this publication are the arithmetic means of the 12 monthly figures. Because these figures are rounded to the nearest whole number, the sum of the industry division may not add up to the average for a county. Also, the sum of the county averages will not necessarily add up to the state average for the same reason.

## Total Wages

The annual total wage figures and the average weekly wages used in this publication include all wages and salaries paid to federal and covered employees including bonuses, commissions and cash value of all remuneration received in any medium other than cash. These wages include both taxable and non-taxable wages.

### **Average Weekly Wages**

The average weekly wages shown were computed by dividing the total wages for the year by the average employment to arrive at an annual average wages rate. This rate, in turn, was divided by 52 weeks to determine average weekly wages.

### **Industrial Divisions**

Employment and wages are reported by major industry division as defined in the 2002 edition of the *North American Industry Classification System Manual*. Industry detail shown in this handbook covers the following industry divisions:

- Agriculture, Forestry, Fishing and Hunting*
- Mining*
- Construction*
- Manufacturing*
- Wholesale Trade*
- Retail Trade*
- Transportation*
- Information*
- Finance and Insurance*
- Real Estate, Rental, and Leasing*
- Professional, Scientific, and Technical Services*
- Management of Companies and Enterprises*
- Administrative & Support, Waste Management, and Remediation Services*
- Education Services*
- Health Care and Social Assistance*
- Arts, Entertainment, and Recreation*
- Accommodation and Food Service*
- Other Services*
- Public Administration*

Industry division employment in this issue differs from previous issues. Previously, private sector employment was classified in one of nine industry divisions while all Government employment was counted in Public Administration or Federal Government. Beginning in this issue Government employment will be classified with private sector employment in the appropriate industrial division. The only employment counted in the Government division will be those Government jobs that are not classifiable in one of the nine industry divisions.
