# About the QCEW Program

The Quarterly Census of Employment and Wages (QCEW) program is conducted by the Oklahoma Employment Security Commission's (OESC) department of Economic Research and Analysis in cooperation with the Bureau of Labor Statistics of the United States Department of Labor. The QCEW program serves as a near census of employment and wages in Oklahoma by accounting for all workers covered under the Unemployment Insurance program or the Unemployment Compensation for Federal Employees program. Employees excluded from this program are: members of the armed forces, the self-employed, proprietors, domestic workers, unpaid family workers, and railroad workers covered by the railroad unemployment insurance system.

The QCEW program produces monthly employment figures and quarterly and annual employment and wage information aggregated by NAICS code or ownership (private, federal, state, or local government). Native American tribal employment and wages (including casinos) are reported under the local government aggregation. Additionally, the data is reported at the statewide level, the metropolitan statistical area (MSA) level, and at the county level.

A searchable database with all available QCEW data is available on the Oklahoma Employment Security Commission's website. If you have any questions concerning the data in this publication or any other Labor Market Information related questions, feel free to contact us by phone at (405)557-7172 or by e-mail at [lmi@oesc.state.ok.us](mailto:lmi@oesc.state.ok.us) .

The background image shows several workers in silhouette on an industrial rig, likely an oil or gas well. They are positioned around a large vertical pipe, with various mechanical components, chains, and ladders visible. The scene is set against a dark, overcast sky, creating a high-contrast, industrial atmosphere. The workers are wearing hard hats and safety gear, and their movements suggest they are engaged in a complex task.

# Quarterly Census of Employment and Wages

by

Industry

## Private Sector Employment by Industry - 2007

**Private Sector Employment by Industry:** For 2007 the “Trade, Transportation, and Utilities” sector, with 286,986 employees, is the industry with the most employment. “Education and Health Services”, with 184,400 employees, comes in second followed closely by “Professional and Business Services” with 181,396 employees. The “Information” sector, with 28,739 employees, has the lowest amount of employment.

## Percent Distribution of Establishments (1st Quarter 2007) and Employment (March 2007) by Size Class

**Size of establishments, and the percent of the workforce they employ:** For 2007, there are nearly 93,000 business establishments that employ approximately 1,200,000 workers. Establishments with between 20 and 49 employees, employing 228,727 workers, contain the largest number of employees by size class. Establishments with 1,000 or more employees make up less than one half of one percent of establishments, but are responsible for employing 7.0% of the current workforce.

# Percent Change in Average Annual Employment 2001 - 2007

**Change in Employment 2001-2007:** Of the ten industry super sectors, six sectors experienced growth in employment between 2001 and 2007, while four experienced contraction in employment during the same time period. The “Information” sector, at (-)22.47% or 8,327 jobs, experienced the largest contraction in growth followed by “Manufacturing” with a rate of contraction at 11.46%, or 5,731 jobs. The “Natural Resources and Mining” sector had the most significant increase at 50.63%, or 18,152 jobs.

## Percent Change in Average Annual Private Sector Employment and Wages by Industry 2006 - 2007

**Wages and Employment 2006 to 2007:** Between 2006 and 2007 most industries experienced positive growth in both average annual wage and employment. The “Information” sector did continue to experience declining employment between 2006 and 2007, though it was able to realize an increase in annual average wages during the same time period. The “Natural Resources and Mining” sector experienced both the largest increase in employment (9.49%) and in annual average wage (7.10%).

## Distribution of Employment by Ownership - 2007

**Distribution of Employment:** For 2007 the private sector is responsible for employing 80% of the workforce with 1,216,947 employees. When combined, the three levels of government employ 317,034 workers or 20% of the workforce. Local government, with 188,455 employees or 12% of the workforce, is the largest government employer. State government is the second largest at 83,228 employees followed by the federal government with 45,351 employees.

## Change in Average Annual Employment by Ownership 2001 - 2007

**Change in Employment 2001-2007:** Between 2001 and 2007 the private sector experienced a 3.89% growth in employment by adding 45,585 jobs. During that same time period the federal government decreased its Oklahoma workforce by 1.94%, or 897 workers. The state increased its employment by 3.47%, or 2,791 workers. It was the local government sector, though, that experienced the greatest growth in employment between 2001 and 2007. The local government sector increased its employment by 13.82%, or 22,880 workers.

## Change in Average Annual Wage by Ownership 2001-2007

**Change in Wage 2001-2007:** Between 2001 and 2007 the federal government sector, at 30.48% or \$14,022 experienced the largest increase in average annual wage. The private sector followed closely with a 28.44% increase, or \$7,854. The local government sector experienced a 20.18% or \$5,173 increase. At 16.45%, or \$4,673, the state government sector was the only sector that did not exceed the 17.08% rate of inflation during the same time period.

The image features a map of Oklahoma with its county boundaries outlined in black. A solid olive-green horizontal bar spans the top of the map. The text is overlaid on the map in a white, serif font with a subtle drop shadow. The text is arranged in four lines: 'Quarterly Census of' on the first line, 'Employment and Wages' on the second line, 'by' on the third line, and 'County' on the fourth line.

Quarterly Census of  
Employment and Wages  
by  
County

**Change in Employment 2001-2007:** Between 2001 and 2007 twenty-one of Oklahoma's seventy-seven counties experienced a decrease in employment. Kiowa County had the largest decrease in employment at 19.07%, with Jefferson County following close behind at 17.82%. The remaining fifty-six counties experienced growth in employment. Love County had the largest increase in employment at 85.96%, with Cotton County following close behind at 83.99%. Murray County had the third largest increase in employment at 42.08%.

**Change in Average Annual Wage 2001-2007:** Between 2001 and 2007 all seventy-seven counties in Oklahoma experienced positive growth in average annual wages. Love County experienced the smallest increase in average annual wage at 4.89% followed by McClain County at 11.45% and Mayes County at 14.13%. Beckham County had the largest increase at 59.72% followed by Garvin County at 56.66% and Latimer County at 56.21%. Oklahoma County had a 30.93% increase, the 27<sup>th</sup> largest in the state. Tulsa County had a 22.87% increase, the 22<sup>nd</sup> lowest increase in the state.

**Increase in Average Annual Wage versus Inflation 2001-2007:** Though average annual wages rose in every county between 2001 and 2007 so did inflation, by 17.08%. Sixty-nine of Oklahoma's counties' average annual wage increased by more than the rate of inflation. The eight counties that did not are: Love, McClain, Adair, Mayes, Craig, Atoka, Greer, and Okmulgee.

The background of the slide is a photograph of an industrial facility, likely a refinery or chemical plant. It features a complex network of pipes, valves, and structural steel beams. The lighting is dramatic, with a strong blue and purple hue, suggesting either dawn or dusk. The perspective is looking upwards and slightly to the side, emphasizing the scale and complexity of the machinery.

# Top Ten Private Sector Industries by:

- Total Employment
- Growth in Employment
- Average Annual Wage

## 2007 Average Annual Employment

**The ten industries with the most employment for 2007:** For 2007 “Food Services and Drinking Places” and “Administrative and Support Services” are the two industries with the most employment. Combined these two industries make up 13.9% of Oklahoma’s workforce. There are three industries in the top ten in employment that share similar staffing patterns; “Ambulatory Health Care Services”, “Hospitals”, and “Nursing and Residential Care Facilities”. With a combined employment of 146,408 these three industries represent 9.5% of Oklahoma’s Workforce.

## Growth in Employment 2006-2007

**The ten industries with the most growth in employment between 2006 and 2007:** Between 2006 and 2007 the “Administrative and Support Services” industry led the way in growth in employment, adding 3,066 jobs throughout Oklahoma. “Machinery Manufacturing” followed closely adding an additional 2,773 jobs. The “Oil and Gas Extraction” and “Support Activities for Mining” industries combined added 4,487 jobs exemplifying the increase in activity related to the recovery of domestic energy.

## 2007 Average Annual Wage

**The ten industries with the highest average annual wage:** For 2007 the “Oil and Gas Extraction” industry had the highest average annual salary at \$103,234. The energy sector led the way with half of the top ten average annual wage industries being related to the recovery, generation, transportation, and refinement of energy. At \$78,232, the “Securities, Commodity Contracts, and Other Financial Investments and Related Activities” industry had the highest average annual wage of non-energy related industries.

QCEW

Data Tables

**Table 1: Private Sector QCEW Data for 2001-2007**

| NAICS Code | Super Sector Title                   | Year | Annual Establishments | Annual Average Employment | Total Annual Wages | Average Weekly Wage | Average Annual Pay |
|------------|--------------------------------------|------|-----------------------|---------------------------|--------------------|---------------------|--------------------|
| 1011       | Natural Resources and Mining         | 2001 | 2,801                 | 35,853                    | \$1,679,778,597    | \$901               | \$46,852           |
| 1012       | Construction                         | 2001 | 8,435                 | 65,805                    | \$1,989,552,086    | \$581               | \$30,234           |
| 1013       | Manufacturing                        | 2001 | 4,879                 | 170,085                   | \$5,838,870,635    | \$660               | \$34,329           |
| 1021       | Trade, Transportation, and Utilities | 2001 | 21,699                | 288,539                   | \$7,686,697,912    | \$512               | \$26,640           |
| 1022       | Information                          | 2001 | 1,708                 | 37,066                    | \$1,373,461,660    | \$713               | \$37,054           |
| 1023       | Financial Activities                 | 2001 | 8,884                 | 77,311                    | \$2,473,347,839    | \$615               | \$31,992           |
| 1024       | Professional and Business Services   | 2001 | 13,684                | 166,641                   | \$4,723,782,346    | \$545               | \$28,347           |
| 1025       | Education and Health Services        | 2001 | 8,376                 | 161,353                   | \$4,369,668,347    | \$521               | \$27,081           |
| 1026       | Leisure and Hospitality              | 2001 | 6,768                 | 126,855                   | \$1,373,800,958    | \$208               | \$10,830           |
