***A very special thanks for your support and assistance in making this
document what it is today:***

Oklahoma Highway Safety Office

Kaye Statton, Governor's Highway Safety Representative
Joe McDonald, Director

In addition, we wish to acknowledge the men and women working in law enforcement and public safety agencies that are responsible for the collection of all crash data in the field. We rely on their accurate completion of crash reports and without their attention to detail we would be unable to maintain a meaningful database. Thanks!!
