X01 Payroll Correction: Data Change – Classified/Unclassified

MDC remarks are required.

Note: Use for correcting record if unable to use Correct History due to confirmed Payroll.

If your agency has not confirmed a Payroll for the employee since the transaction was entered, Correct History can be done for **any** changes. Contact the Help Desk. Be sure to include both Name and Employee ID to ensure accuracy.

If your agency extracts from PeopleSoft HRMS to a different system and that extract has already run, you will need to be aware of the discrepancies between the two systems.

Once Payroll has been confirmed for the employee, there are three methods for correcting a transaction once entered into PeopleSoft:

- Adding an X01 or effective-dated row.
- Contacting the Help Desk.
- Changing the entry (if it isn't tied to a particular effective date, it can be changed at any time by the user).

Requires X01 or effective-dated row:

Data values on Biographical Data or Job Data which **do have an impact on payroll or extracts** should not be corrected – a new effective-dated row must be added. If you need to add a row to correct Job Information, select the appropriate Data Change transaction (i.e., Division Change, Paygroup Change, etc.).

The Data Change, X01 Correction, transaction type should only be used to correct salary or other fields which affect HCM's review process. Be sure to indicate the reason for the correction in the MDC Remarks, and if payroll needs to process a retroactive adjustment.

Fields requiring this action include:

- Name (must match Social Security Card)
- Address
- Position Number (if the correction changes default values, such as Department ID or Location Code)
- Department ID
- Location Code
- Pay Group
- Holiday Schedule
- Compensation (Comp Rate Code for base pay and Comp Rate Code for a supplemental that is consistently paid, and/or the actual monthly or biweekly amount)
- Division (from the MDC Job Data Page, and if your agency uses Division)
- Workers' Comp code
- Earnings Distribution Page for Department ID and/or Account Code
- Time Reporter Page for Status, Effective Date and/or Workgroup

Requires Help Desk case:

Data values which **do not impact Payroll**, such as Employee Class or Regular/Temporary, can still be corrected by contacting the Help Desk. When contacting the Help Desk, be sure to include both Name and Employee ID to ensure accuracy.

Can be changed at any time:

- Social Security Number, Birth Date, Ethnic Group, Phone Numbers and dates on the Employment Data page are not effective-dated.
- Longevity Date can be corrected by the User and does not require a Correct History Help Desk Case; however, **changes to the date should be done in coordination with the Payroll's execution of the Longevity process.**
- You can add a row to Benefit Program Participation without affecting the Job Data effective date, in case you forget during an appointment change or rehire.
