OSBI SIBRS XML Interface Control Document

Revised February 22, 2010

Version 3.09

Table of Revisions

Release Date	Version ID	Notes, Comments, and References
May 12, 2003	1.0	Initial version.
June 6, 2003	1.1	Added field description and separated the max occurs field from mandatory/optional. Also added definitions for the new columns added to the table.
June 9, 2003	2.0	Revised based on OSBI review.
June 26, 2003	2.02	Additional revisions based on further field occurrences review.
October, 2003	3.02	Updated definitions to reflect phase 2 of the SIBRS system. See Addendum #1 for details.
October 15, 2003	3.03	Found one missing reference to changes on the Addendum #1.
December 23, 2003	3.04	<i>For both Type 1 and Type 2:</i> Removed redundant JustHomCirc tag. Changed the maximum occurrences of the AggrAssaultHomCirc tag to 5. Added the Relation attribute to the VictimizedBy tag. Revised the sample XMLs for Type 1 and Type 2.
June 20, 2004	3.05	Added Appendix A to itemize all the possible code values for some of the XML elements. Also updated XML definition in VictimizedBy section. Relation is an Element but it was listed as Attribute. Updated the sample XMLs to remove empty tags.
July 15, 2004	3.06	Added SubmissionStatus Replacement for Appendix A. Corrected Segment 4 <Offense> to corrected value.
Sept 1, 2004	3.06	Page 7 changed "Age" and "AgeMax" to S from N.
Sept 1, 2004	3.06	Page 11 added note on "GangAffiliation" to free format text.
Sept 1, 2004	3.06	Added cross references for SIBRS Codes Tables and Appendix A in this document.
Dec. 16, 2004	3.07	Property Segment, <DateRecovered> field added, Type1, Type2
Dec. 16, 2004	3.07	Property Segment, <DrugType> field changed from optional (O) to Required if Applicable (R/A), Type 1, Type 2
Dec. 16, 2004	3.07	Property Segment, <Quantity> field changed from optional (O) to Required if Applicable (R/A).
Dec. 16, 2004	3.07	Property Segment, <QuantityUOM> field changed from optional (O) to required if applicable (R/A).

Dec. 16, 2004	3.07	Vehicle Segment, <TowedTo> changed 1-100 characters
Dec. 16, 2004	3.07	Reporting Officer Segment, change ReportingOfficer to contain no spaces.
Dec. 16, 2004	3.07	Offense Segment, Change <ActivityType> reference from 26:24 to 23:40
Dec. 16, 2004	3.07	Victim Segment, Age changed from optional (O) to from to required if applicable (RA)
Dec. 16, 2004	3.07	Victim Segment, changed <LocationofInjury> from one occurrence to maximum of 5 occurrences
Dec. 16, 2004	3.07	Suspect Arrestee segment,
Dec. 16, 2004	3.07	Vehicle Segment, <TowedTo> changed to up to 100 characters
Dec. 16, 2004	3.07	Admin Segment, type 2 Only, change <CaseClearance> from optional (O) to required if applicable (M)
Dec. 16, 2004	3.07	Admin Segment, type 2 only, added <IsCompleted> to segment
Dec. 16, 2004	3.07	Victim Segment, type 2 only, change <Race>, <Age>, <Sex> from optional (O), to required if applicable (RA).
Dec. 16, 2004	3.07	Page 2, Update of items 2, 3 and 10.
Dec. 16, 2004	3.07	Appendix A Page 47 "IsLEOKA" Admin segment definition updated
Dec. 16, 2004	3.07	Suspect Arrestee segment, <ArmedWith> changed from optional (O) to required if applicable (R/A)
Dec. 16, 2004	3.07	Suspect Arrestee segment <AgeMax> changed from required if applicable (R/A) to Optional (O), Type 2 only
Dec. 16, 2004	3.07	Suspect Arrestee segment <Age> changed from required if applicable (RA) to Mandatory (M), Type 2 only
Dec. 16, 2004	3.07	<Arrest> segment, <ArrestedOn>, <IncidentTrackingNum>, <MultipleArrest>, <ArrestType>, <OffenseCode> changed from optional (O) to required if applicable (R/A) Type 2 only Discussion for Type 1
June 24, 2005	3.08	Added tags to accommodate officers
Feb 22, 2010	3.09	Removed references to Type-2 reporting and changed all the XML file examples to reflect Type-1 submission only.

1.0 Introduction

The purpose of this document is to serve as a reference guide to XML incident data formats and the process by which XML incident data will be accepted by the OSBI State Incident Based Reporting System (SIBRS). The incident data can be 'uploaded' into the SIBRS system and serve as an agency's main type of incident reporting input. This incident data file upload mechanism serves as an alternative to the web form method of input also offered by the SIBRS system.

Several Oklahoma agencies are currently using RMS systems (Record Management System) to capture crime-related data. These RMS systems may have the ability to produce an export file that can be the basis for data required for SIBRS reporting. This document defines the specific format of the XML tags and data that may appear in these files to represent incident data.

The major goals for this XML interface definition are:

- To simplify the input of SIBRS incident reporting data for those agencies that currently operate RMS systems.
- To offer an alternative data input mechanism other than the SIBRS web forms.
- To describe the format of the XML data and the basic process of uploading the data to the SIBRS system.

1.1 Scope

This document encompasses the file upload interfaces of the SIBRS system that are available to agencies. It does not attempt to address individual agency issues that may arise from the use of internal software systems. These issues should be directly reviewed and addressed with the OSBI SIBRS support team.

1.2 General Requirements and Basic Process

The basic process of the SIBRS XML incident data upload system is described below. In order for this process to be successful, participating agencies must:

- Have access to the Internet and have received appropriate SIBRS user credentials (IDs and Passwords) as issued by OSBI.
- Have established a means by which the XML data format described herein can be produced repeatedly and reliably. This may require custom software enhancements to internal RMS systems to accomplish this requirement.
- Create regularly scheduled procedures for generating the XML data and performing the upload process to the SIBRS system.
- Have procured a software tool capable of creating "zip" archives (such as WinZip). The XML files to upload must be placed inside of a zip archive.

Once these have been attained, the general process of SIBRS XML data upload shall follow the process described below:

1. Create a zip archive from the one or more XML files that represent the incident reports to be submitted. Each incident report should be contained in a separate XML file. This zip archive file shall be named using the sequence: Agency ORI+Report year+Report month+"_" +Current Year +Current month + Current day. For example, OK0550500200304_20100215.ZIP is a valid filename.
2. Each XML file should contain the ORI#+Incident Number + Type 1. For example, OK**05505000**4000100.xml
3. Sign on to the OSBI SIBRS system using the Internet and the user ID and password provided that supports SIBRS XML data upload.
4. Select the "Incident Upload – Full Incidents" from the SIBRS system home page.
5. The system will open a window and permit the user to browse for the zip file name. Enter the name of the zip file that contains the incident report XML data.
6. Follow any on-screen instructions provided during the XML file upload process.
7. Once the data transfer and submission is complete a confirmation message will be displayed indicating the successful transfer of data.
8. The SIBRS system will send an E-mail containing the result of the submitted incident data validation to the address stored in the profile of the user that uploaded the zip file. Instructions describing the steps to correct errors associated with the data will be provided.
9. Note special characters are not permitted in the zip file name or the XML file name. No hyphens, number signs etc. Basically only numbers and letters should be used.

2.0 Specifications

This section defines the specifics of the XML interface to the SIBRS system.

2.1 SIBRS Overview of Operation

Figure 1 depicts the overall functional architecture of the SIBRS system. In addition to XML data management capabilities, it provides several important components to implement the SIBRS functions:

- **SIBRS Portal** – is the main user interface to the SIBRS system.
- **SIBRS Forms** – provides web-based forms for collection of incident data
- **SIBRS Compliance** – performs validation error-checks on incident data
- **SIBRS Access** – controls the authentication and authorization to SIBRS
- **SIBRS Analytics** – provides the analysis and reporting functions of SIBRS
- **SIBRS Integration** – provides integration to third party systems
- **SIBRS Repository** – databases holding Full (Type 1) data

Figure 1 - SIBRS System Functional Architecture

2.2 Full (Type 1) Data

The data elements identified as Type 1 consists of incident data that is reported in addition to the minimum SIBRS system requirement. This data is collected in full as listed in the sample statewide Oklahoma incident forms. Detailed information for the following data segments are collected depending on the incident reported.

- Full Victim – provides information about the victim(s) involved in the incident.
- Full Offender – provides information about offender(s) involved in the incident, if known.
- Full Reporting Party – provides information about the reporting party(ies) involved in the incident.
- Full Witness – provides information about the witness(es) involved in the incident, if any.
- Full Parent (minor victim) – provides information about the parent if the victim is a minor.
- Full Reporting Officer – provides information about the reporting officer in the incident. The sample form does not include full name and title; the officer number is expected to relate to a database table with full officer information.

2.2.1 Type 1 XML Data

2.2.1.1 XML Data Definition

The following table defines the XML tags and identifies the data elements that can appear in a Type 1 incident file.

- Serial Num (Ser-Num) indicates the data section ordering and sub-section ordering within the XML file.
- XML Tag indicates how the data is delimited in the document. **Green bold notes indicate PAGE and PREFIX number from the SIBRS Code Tables Version 1.2 for ease of reference. Please note if references are not published. Sample references will be published as: “<Code> (7:1)” i.e. page 7 Prefix 1 in the code table. (24:AppA) refers to page 24 in this document with the appendix locator.**
- **Blue text indicates the latest changed element in this document (this version only). Those items are highlighted yellow for quick reference.**
- Parent Tag Name specifies the parent segment to which the XML Tag belongs.
- E/A stands for Element/Attribute, it determines whether the data item appears as a data value (element) in or as an attribute of the XML.
- Type indicates whether the data is a numeric, character string or date/time value.
- Len (Length) specifies the maximum width of the data may appear in the incident file.
- M/O stands for whether the item is optional or mandatory. R/A denotes that the data is conditionally required.
- Max Occurs stands for Maximum occurrences of possible representing a data element.
- Tag Description is the description of what the tag is and how it will be used.
- The Type “ID” and “IDREF” represents a system identification number for the data entity. *Refer to Section 4.0 of this document for more detailed information on the use of ID and IDREF attribute types.*

Ser-Num	XML Tag	Parent Tag Name	E/A	Type	Len	M/O	Max Occurs	Tag Description
1	<Incident>	Root Element						This tag marks the start of incident data. It is the “outer most” tag for the XML file.
	IncidentNum	<Incident>	A	S	12	M	1	Defines the case number for this incident.

	ORINum	<Incident>	A	S	9	M	1	Specifies the Originating Agency Identifier assigned to the local agency.	
	ValidationStatus	<Incident>	A	S	1	M	1	Indicates the validation status of the incident data.	
	SubmissionStatus	<Incident>	A	S	1	M	1	Indicates whether the incident has been or needs to be submitted to the FBI.	
	SupervisorReviewStatus	<Incident>	A	S	1	M	1	Indicates whether the incident report needs to be reviewed by a supervisor.	
2	<Admin>	<Incident>						Marks the start of the Administrative segment of the incident report.	
	<IncidentType> (38:App A)	<Admin>	E	S	1-20	M	1	Specifies a SIBRS code value that represents the type of incident report being submitted.	
	<ClearedOn>	<Admin>	E	D/T		O	1	Identifies the Exceptional Clearance Date for the incident report.	
	<CaseClearance> (19:18)	<Admin>	E	S	1-20	O	1	Specifies a SIBRS code value that represents the reason for the case being cleared.	
	<ReportedOn>	<Admin>	E	D/T		M	1	Specifies the date/time on which the incident was reported.	
	<OccurredFrom>	<Admin>	E	D/T		M	1	Specifies the starting date/time on which the incident has occurred.	
	<OccurredTo>	<Admin>	E	D/T		O	1	Specifies the ending date/time on which the incident occurred.	
	<IsComplete>	<Admin>	E	N	1	M	1	Indicates whether the incident is complete.	
	<IsLEOKA> (39:App A)	<Admin>	E	S	1-20	M	1	Specifies a SIBRS code value that represents whether the incident is a LEOKA incident.	
2.1	<Location>	<Admin>					1	<i>Marks the start of Location information within the Administrative segment.</i>	
	<CareOfLine>	<Location>	E	S	1-100	O	1	Specifies the Area location such as Residential, Business, etc...	
	<StreetName>	<Location>	E	S	1-100	O	1	Specifies the Street Address (number and name), where the incident has occurred.	
	<UnitNum>	<Location>	E	S	1-10	O	1	Specifies the Suite / Apartment Number of the location.	
	<City>	<Location>	E	S	1-50	O	1	Specifies the City where the incident occurred.	
	<State>	<Location>	E	S	2	O	1	Specifies the State where the incident occurred.	
	<Zip>	<Location>	E	S	5-10	O	1	Specifies the Zip Code where the incident occurred.	
	<Geo1>	<Location>	E	S	100	O	1	Specifies the geographic location where the incident occurred.	
3	ReportingOfficer	<Incident>	(Multiple Occurrences & Optional)						Marks the start of the Reporting Officer Segment of the Incident Report.
	<OfficerNum>	<ReportingOfficer>	E	S	10	M	1	Indicates the Reporting Officer identification number.	
	<Role>	<ReportingOfficer>	E	S	1-20	M	1	Indicates the Role of the Reporting Officer.	
3.7	<ReportingOfficerTime>	<ReportingOfficer>	(Multiple Occurrences & Optional)						
	<FromDate>	<ReportingOfficerTime>	E	D/T		M		Specifies the starting date/time on which the officer has reported.	

	<ToDate>	<ReportingOfficerTime>	E	D/T		M		Specifies the ending date/time on which the officer has reported.
4	Victim	<Incident>	(Multiple Occurrences & Optional)					Marks the start of the Victim Segment of the Incident Report.
	ID	<Victim>	A	ID		M		Specifies the system Identification number for the Victim.
	<VictimType> (24:6)	<Victim>	E	S	1-20	M	1	Specifies a SIBRS code value that represents the type of Victim.
	<VictimOtherTypeDesc>	<Victim>	E	S	1-50	O	1	Specifies additional information on the Victim Type.
	<SequenceNum>	<Victim>	E	S	10	M	1	Specifies the unique sequence number for the victim in the incident.
	<FirstName>	<Victim>	E	S	1-50	R/A	1	Indicates the Victim's First Name.
	<MiddleName>	<Victim>	E	S	1-50	O	1	Indicates the Victim's Middle Name.
	<LastName>	<Victim>	E	S	1-50	R/A	1	Indicates the Victim's Last Name.
	<Alias>	<Victim>	E	S	1-100	O	1	Indicates the Victim's other name (Alias), if any.
	<Occupation>	<Victim>	E	S	1-50	O	1	Indicates the Victim's Occupation.
	<CellPhoneNum>	<Victim>	E	S	10	O	1	Indicates the Victim's Cell Phone Number.
	<HomePhoneNum>	<Victim>	E	S	10	O	1	Indicates the Victim's Home Phone Number.
	<PagerPhoneNum>	<Victim>	E	S	10	O	1	Indicates the Victim's Pager Number.
	<Email>	<Victim>	E	S	1-100	O	1	Specifies the e-mail address of the Victim.
	<SSNum>	<Victim>	E	S	11	O	1	Specifies the Social Security Number of the Victim.
	<DateOfBirth>	<Victim>	E	D/T		O	1	Specifies the Victim's Date of Birth.
	<AgeClass>	<Victim>	E	S	1-20	O	1	Indicates the Age category of the Victim. A-Adult, J-Juvenile, U-Unknown
	<Age>	<Victim>	E	S	3	O	1	Indicates the Age of the Victim.
	<AgeMax>	<Victim>	E	S	3	O	1	Specifies the Age range of Victim. Used along with the <Age> tag.
	<Sex> (27:30)	<Victim>	E	S	1-20	R/A	1	Specifies a SIBRS code value that represents the Sex of the Victim.
	<Race> (24:7)	<Victim>	E	S	1-20	R/A	1	Specifies a SIBRS code value that represents the Race of the Victim.
	<HairColor> (43:41)	<Victim>	E	S	1-20	O	1	Specifies a SIBRS code value that represents the Hair Color of the Victim.
	<EyeColor> (43:40)	<Victim>	E	S	1-20	O	1	Specifies a SIBRS code value that represents the Eye Color of the Victim.
	<HeightFt>	<Victim>	E	N	1	O	1	Specifies the Height of the Victim (feet part).
	<HeightIn>	<Victim>	E	N	2	O	1	Specifies the Height of the Victim (Inches part).
	<HeightFtMax>	<Victim>	E	N	1	O	1	Specifies the Height Range of the victim (feet part). Used along with the <HeightFt > tag.
	<HeightInMax>	<Victim>	E	N	2	O	1	Specifies the Height Range of the victim (inches part). Used along with the <HeightIn> tag.
	<Weight>	<Victim>	E	N	3	O	1	Specifies the Weight of the Victim.
	<WeightMax>	<Victim>	E	N	3	O	1	Specifies the Weight Range of the Victim. Used along with <Weight> tag.

	<MaritalStatus> (25:8)	<Victim>	E	S	1-20	O	1	Specifies a SIBRS code value that represents the Marital Status of the Victim.
	<ResidentStatus> (43:42)	<Victim>	E	S	1-20	O	1	Specifies a SIBRS code value that represents the Resident Status of the Victim.
	<OtherResidentStatusDescrp>	<Victim>	E	S	1-100	O	1	Indicates additional information of the Victim's Residential Status.
	<PlaceOfBirth>	<Victim>	E	S	1-100	O	1	Indicates the Victim's Place of Birth.
	<DriversLicenseNum>	<Victim>	E	S	1-30	O	1	Indicates the Victim's Driver License Number.
	<DriversLicenseState>	<Victim>	E	S	2	O	1	Indicates the Victim's Driver License issuing state.
	<Ethnicity> (28:31)	<Victim>	E	S	1-20	O	1	Specifies a SIBRS code value that represents the Ethnicity of the Victim.
	<FBINum>	<Victim>	E	S	1-12	O	1	Specifies the FBI Number related to the Victim.
	<OSBINum>	<Victim>	E	S	1-12	O	1	Specifies the OSBI Number related to the Victim.
	<UnderInfluence>	<Victim>	E	N	1	O	1	Indicates whether the Victim was under influence.
	<Handicap>	<Victim>	E	N	1	O	1	Indicates whether the victim was handicapped.
	<IsLEOKA>	<Victim>	E	N	1	R/A	1	Indicates whether the victim was an officer.
	<OfficerKilled>	<Victim>	E	N	1	R/A	1	Indicates whether the Victim was an officer and killed.
	<CallType> (39:App A)	<Victim>	E	S	1-20	R/A	1	Specifies a SIBRS code value that represents the Type of Call in which the officer was involved. Applicable only if the Victim is an officer.
	<TypeOfAssignment> (26:24)	<Victim>	E	S	2	R/A	1	Specifies a SIBRS code value that represents the Type of Assignment the officer had. Applicable only if the Victim is an officer.
	<VestWorn>	<Victim>	E	N	1	R/A	1	Indicates whether the officer was wearing a Vest. Applicable only if the Victim is an officer.
	<LEOKAORI>	<Victim>	E	S	1-20	R/A	1	Indicates the Officer's agency Number. Applicable only if the Victim is an officer.
	<LocationOfInjury>	<Victim>	E	S	1-50	R/A	5	Indicates the Victim's injury location.
4.1	<HomeAddress>	<Victim>					1	Marks the Start of the Victim's Home Address
4.1.1	<Address>	<HomeAddress>					1	
	<CareOfLine>	<Address>	E	S	1-100	O	1	Specifies the Area location such as Residential, Business, etc...
	<StreetName>	<Address>	E	S	1-100	O	1	Specifies the Street Address (number and name) of the Victim's Residence.
	<UnitNum>	<Address>	E	S	1-10	O	1	Specifies the Suite / Apartment Number of the Victim's Residence.
	<City>	<Address>	E	S	1-50	O	1	Specifies the City, of the Victim's Residence.
	<State>	<Address>	E	S	2	O	1	Specifies the State of the Victim's Residence.
	<Zip>	<Address>	E	S	5-10	O	1	Specifies the Zip Code of the Victim's Residence.
4.2	<Employer>	<Victim>					1	Marks the Start of the Victim's Employer information
	<Name>	<Employer>	E	S	1-100	O	1	Specifies the Name of the Victim's Employer.

	<PhoneNum>	<Employer>	E	S	10	O	1	Specifies the Phone Number of the Victim's Employer.
	<PhoneExt>	<Employer>	E	S	5	O	1	Specifies the Phone Number Extension of the Victim's Employer.
4.2.1	<Address>	<Employer>						
	<CareOfLine>	<Address>	E	S	1-100	O	1	Specifies the Area location such as Residential, Business, etc...
	<StreetName>	<Address>	E	S	1-100	O	1	Specifies the Street Address (number and name) of the Victim's Business Address.
	<UnitNum>	<Address>	E	S	1-10	O	1	Specifies the Suite / Apartment Number of the Victim's Business Address.
	<City>	<Address>	E	S	1-50	O	1	Specifies the City of the Victim's Business Address.
	<State>	<Address>	E	S	2	O	1	Specifies the State of the Victim's Business Address.
	<Zip>	<Address>	E	S	5-10	O	1	Specifies the Zip Code of the Victim's Business Address.
4.3	<AggAssaultHomCirc>	<Victim>	<i>Multiple Occurrences & Optional</i>					<i>Marks the Start of Aggravated Assault information</i>
	Num	<AggAssaultHomCirc>	A	ID		R/A		Enumerates the Aggravated Assault/Homicide Circumstance information.
	<AggAssaultHomCirc> (18:16)	<AggAssaultHomCirc>	E	S	1-20	R/A	5	Specifies a SIBRS value that represents the Aggravated Assault Homicide Circumstances.
	<Injury> (27:25-29)	<Victim>	E	S	1-20	O	5	Specifies a SIBRS code value that represents the body location of the injury occurred.
5	<Offense>	<Incident>	<i>Multiple Occurrences & Optional</i>					<i>Marks the Start of the Offense Segment of the incident.</i>
	ID	<Offense>	A	ID		M		Specifies the system Identification number for the offense.
	<Code> (7:1)	<Offense>	E	S	1-20	M	1	Specifies a SIBRS code value that represents the offense code.
	<Completed> (8:1)	<Offense>	E	N	1	M	1	Indicates whether the offense has been completed or not.
	<HateBias> (25:23)	<Offense>	E	S	1-20	R/A	1	Specifies a SIBRS code that represents the Hate Bias Code. Required if offense is a Hate Bias offense.
	<UsingAlcohol>	<Offense>	E	N	1	O	1	Indicates whether the Offense was committed under Alcohol's influence.
	<UsingDrugs>	<Offense>	E	N	1	O	1	Indicates whether the offense was committed under Drug's influence.
	<UsingComputer>	<Offense>	E	N	1	O	1	Indicates whether the offense was committed using a computer.
	<NumPremisesEntered>	<Offense>	E	N	1-10	M	1	Specifies the number of premises entered. A value between 0 up to 99 is valid.
	<ForcedEntry>	<Offense>	E	N	1	R/A	1	Indicates whether the offense was committed using Force or not.
	<SequenceNum>	<Offense>	E	S	10	M	1	Specifies the unique sequence number for the Offense in the incident.
	<PremisesInhabited> (20:2)	<Offense>	E	S	2	O	1	Specifies a SIBRS Code that represents the Premise Type of the Offense.
	<WeaponsUsed> (23:5)	<Offense>	E	S	1-20	O	3	Specifies a SIBRS Code that represents the Weapons involved in

								committing the Offense.
	<ActivityType> (23:40)	<Offense>	E	S	1-20	O	3	Specifies a SIBRS Code that represents the Activity type.
5.1	<Location>	<Offense>					1	Specifies the location of the Offense
	<CareOfLine>	<Location>	E	S	1-100	O	1	Specifies the Area location such as Residential, Business, etc...
	<StreetName>	<Location>	E	S	1-100	O	1	Specifies the Street Address (number and name) where the Offense occurred.
	<UnitNum>	<Location>	E	S	1-10	O	1	Specifies the Suite / Apartment Number of the location.
	<City>	<Location>	E	S	1-50	O	1	Specifies the City where the Offense occurred.
	<State>	<Location>	E	S	2	O	1	Specifies the State where the Offense occurred.

3.1.2 Type 1 Additional Incidents – Example 3

4.0 Usage of ID and IDREF types

Incident reports are comprised of multiple segments of data that describe the important details of the incident. Some of the segments include: Administrative (Admin), Reporting Officer, Victim, Offense, Property, Suspect/Arrestee (Offender), Witness and Reportee.

Because an incident can involve multiple victims, offenses, property and offenders, it is important to establish the proper and accurate associations between segment values of an incident. To achieve this objective, the SIBRS Interface Control Document XML uses the concept of identifiers (IDs) and identifier references (IDREF) to establish linkages between incident segment values.

The following table logically describes an example incident, key segments of data, and the relationships that exist between each segment. The example incident is a robbery and simple assault involving a victim, Smith. Smith's wristwatch and a ring were stolen and he was punched in the face by Bryant, one of offenders. The criminals, Jones and Bryant, were arrested and charged.

The table below lists the ID and IDREF values for the segment data that would appear in the XML.

XML Incident Segment - Attribute	Occurrence	ID Value	IDREF Value
Victim	Smith	ID01	
Offense	120 - Robbery	ID02	
VictimOffense – Victim			ID01 (refers to Smith)
VictimOffense – Offense			ID02 (refers to Robbery)
Offense	13B – Simple assault	ID03
